

# THE AUDI STORY

## The story of our collection of obsessions.

Precision. Design. Vision. These are the kind of attributes that we deliver as a company, the kind of passions that go way past getting you from point A to point B. That's because Audi knows that how you get to your destination is only part of the story. And so it is with us as a luxury brand. Our obsessions are our commitments, a collection of inspirations that make up our core truth: That from a foundation of brilliant engineering, we craft more than great vehicles—we tell great stories.

TT

We decided to double down  
on performance.

Take a closer look at what we mean by iconic sports car. What you'll find is a vehicle that puts as much emphasis on performance as it does on timeless design. It is designed for those who like the thrill of attacking the road in absolute comfort—and progressive style. There's no reason to look back now.

BE →  
CAUSE

TT

2014 AUDI TT COUPE SHOWN IN ICE SILVER METALLIC WITH AVAILABLE EQUIPMENT.

# Twins with the same performance gene.

There's more between these two than just stunning good looks. It's a deeper connection, cut from the same legendary racing cloth. Yes, the Audi TT Coupe and Roadster captivate an audience at first sight, but that's just a jumping-off point to a more intense experience. You'll get goose bumps just thinking about how your TT intimately connects you to the pavement as you carve your way up and down a mountain road.<sup>1</sup> And when you consider the attention to detail and luxurious touches found throughout this vehicle, it all becomes even more enticing. Add to all of that a collection of available innovative technologies, and you'll quickly realize that being passionate about performance is one thing, but having it in your DNA is what truly sets you apart.

## Design

We do not follow design trends. We set them.

<sup>1</sup> Obey all speed and traffic laws.

# Even your mind's eye can't stop staring.

In this case, staring is encouraged. That's what the iconic design of your Audi TT was destined to make happen. And nothing is more electrifying than gazing freely at the TT. Notice how every line comes at you with purpose. The dramatic profile is unmistakable, xenon plus headlights complemented by Le Mans-inspired LED daytime running light technology announce your arrival, and the Audi Singleframe® grille, air inlets and pronounced wheel arches work in concert to highlight the assertive design. Looking away will not be an option.

---

## *Enlighten*

Shedding a new light on illumination just happened to be a design boon.

Perhaps its most dramatic element, the signature **Audi Singleframe® grille** makes the TT instantly recognizable. Its lines perfectly meld with the front fascia and combine for a thrilling effect.

**Flat-bottom, aluminum-trimmed steering wheel**

Further expressing its sports car DNA is a steering wheel designed for spirited driving.

**Aluminum-trimmed pedals**

A solid look, and grippy to the touch, aluminum-trimmed pedals call attention to the vehicle's performance roots while adding a little more style for your feet to appreciate.

**Aluminum trim accents**

Adding to the overall sophistication of the interior are Aluminum-optic trim accents and Brushed Aluminum decorative inlays.

## Driven as much by character as by superior control.

We're just fine with having the interior design that has few peers—or predecessors. As you look around, a unique expression of our design sensibilities for the TT will be apparent, but you'll also see the unmistakable fit and finish that says nothing but "Audi." A driver-oriented cockpit welcomes you as you enter. Luxurious leather/Alcantara® or available Fine Nappa leather seating surfaces offer support in all the right places, Brushed Aluminum inlays give it a subtle, cosmopolitan feel, and a three-spoke flat-bottom multifunction sport steering wheel helps keep you in full command. This is character that isn't afraid of taking control.

## A dramatic story, stitched together.

We think we have a compelling story to tell. It starts with a sophisticated interior that offers more than a dollop of sports car panache and luxury. Available high-touch Madras Brown Baseball-optic leather seating surfaces offer superior support and elevate the cabin's distinctiveness. The thick, woven stitching adorning the seat bolsters is visually arresting and pays tribute to an iconic American game. But the details are not limited to just the seating surfaces. An available beautifully wrapped center console and sport steering wheel also boast premium leather treatments, and contrast stitching in the sport steering wheel adds a racetrack-inspired accent.

### *Craftsmanship*

We've ensured that every stitch represents the detail that we put into every aspect of an Audi.

### *Baseball-optic leather seating*

As if the interior of the TT doesn't already make a powerful statement, available Baseball-optic leather seating surfaces add a decidedly unique interior treatment that will command attention, even among those oblivious to the sport.

## Open up to total enlightenment.

There's a lot you can learn by just being open. In this case, it's all about SPF to go along with your rpm. Top down, with the sun flooding the cabin, you find the easy charms of the Audi TT Roadster with the touch of a button. Better yet, you don't have to worry about the rpm, either, because the sports car heritage of the TT Roadster delivers them too. You could say it enlightens with joyful abandon.

---

### Retractable acoustic soft top

Designed with special noise-dampening properties, the TT Roadster offers a top constructed of canvas, lightweight aluminum and steel. It opens and closes with a simple push of a button and can be operated at speeds under 31 mph.

---

### Adaptive rear spoiler

In order to improve vehicle downforce, the adaptive rear spoiler deploys automatically at 75 mph and retracts at 50 mph<sup>1</sup>

---

<sup>1</sup> Obey all speed and traffic laws.

# The case for unbreakable bonds.

▼ 56°F to 78°F

Conventional wisdom may suggest that an all-wheel drive system is there purely to provide confidence in inclement weather, but Audi quattro® all-wheel drive is much more than just a foul-weather friend. It's performance engineering that takes on a dry, twisty mountain road as beautifully as it tracks through powder.<sup>1</sup> In other words, quattro® helps enhance performance by appropriately transferring power to the necessary wheels when accelerating and turning, so you have confidence-inspiring performance for almost any road condition. Inclement weather aside, the really gripping story about quattro® is how it performs overall, forging a bond between you and the road that really connects.<sup>1</sup>

## All-around confidence

Just like life, the road can throw you a curve. So throw one right back with the superior grip and control of quattro®. It helps provide the legendary performance and handling you would expect from Audi, no matter if you're accelerating in the passing lane or carving up a mountain road. This is advanced engineering designed for everyday thrills.<sup>2</sup>

<sup>1</sup> When driving during cold, rainy, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter tires. Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions. <sup>2</sup> Obey all speed and traffic laws.

▼ HUMIDITY 95%

### Center differential

To help give you optimal traction in practically every situation, the center differential can distribute power to the front and rear wheels individually. During normal driving conditions, it directs 85 percent of the torque to the front wheels, but in extreme circumstances, it can transfer up to 100 percent of the torque to one of the two axles.

▼ WIND 54 mph

# The balance of power has been tipped in your favor.

Just as in nature, the balance of power in your Audi TT is in constant flux. Good thing the engine and transmission find perfect harmony, adding up to an altogether exhilarating experience. The perfectly tuned TFSI® engine helps provide a flawless yin to the advanced Audi S tronic® dual-clutch transmission's yang, achieving a remarkable level of performance, and putting the power right where it should be—under your right foot.

## 2.0 TFSI four-cylinder

This 2.0-liter turbocharged DOHC engine produces 211 horsepower and 258 lb-ft of torque, and combines the valvelift system, Audi FSI® direct injection and turbocharging for great power and overall efficiency.<sup>1</sup>

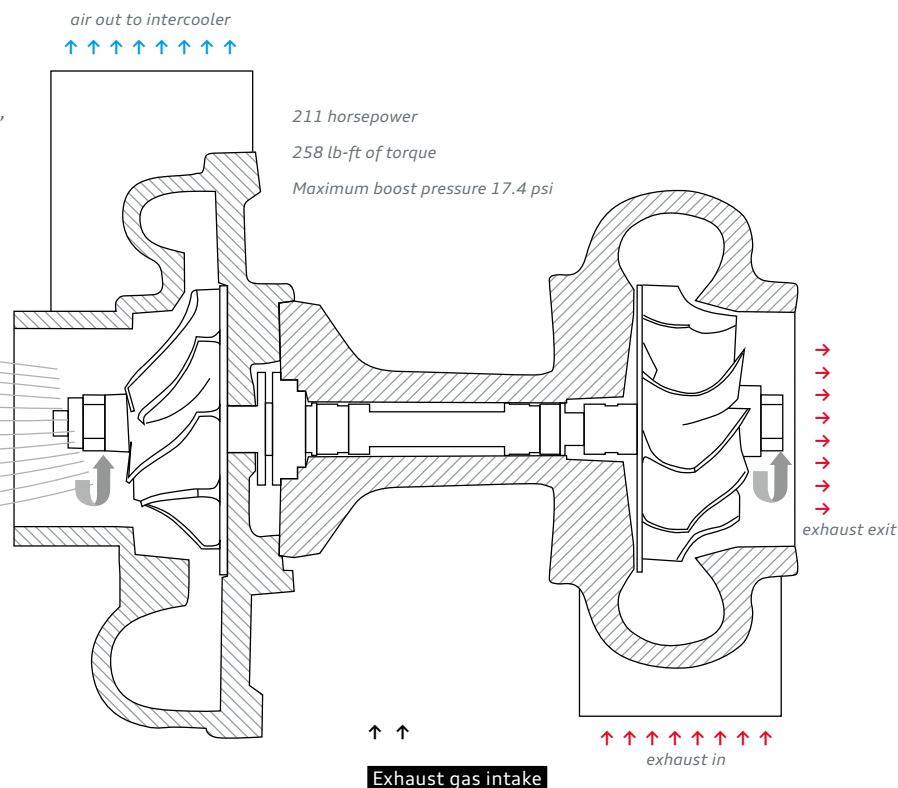

## Performance

The adage “good things come in small packages” has never been more true.

## Induction-technology turbocharger

Compressing the airflow to the engine allows more air into the cylinder and, ultimately, more power from each combustion cycle, significantly improving the engine's power-to-displacement ratio.

## Exhaust gas intake

Exhaust from the engine spins the turbine that is connected by a shaft to a compressor that pressurizes air. The compressor forces this pressurized air into the cylinders at boosted pressures up to 17.4 psi, thus producing more power from a smaller displacement engine.

<sup>1</sup> EPA estimates not available at time of printing. See [www.fueleconomy.gov](http://www.fueleconomy.gov) for updated information. Your mileage will vary.  
<sup>2</sup> 0-60-mph times will vary from model to model. <sup>3</sup> Obey all speed and traffic laws.

## Sometimes, it takes two to shift in a new direction.

We believe there's power in great teamwork. The concept behind one of the world's most advanced transmissions is simple: provide near-constant power. This is accomplished by having two clutches, two input shafts and two independent gear clusters, giving you the confidence that you'll be in the gear you select the instant you select it. And that translates into big performance numbers.

Seamless shifting dual clutch

0-60 mph: 5.3 seconds<sup>2</sup>

### Launch control

Get off the line even quicker with the help of Audi launch control. Working in concert with the Audi S tronic dual-clutch transmission, it optimizes launch rev speed and traction so you can expect quicker off-the-line accelerations.<sup>3</sup>

## Dial in to a deeply connected world.

Constant connectivity has become a must in the 21<sup>st</sup> century, so why shouldn't you be able to maintain it in your vehicle? That's why we integrated the available Audi Navigation plus system.<sup>1</sup> It not only helps find the best route to your destination, but also helps you skirt traffic and find a place to eat along the way. And when you need to make a call, you can count on the BLUETOOTH® mobile phone connectivity to make it happen with ease.<sup>2</sup> Of course, you need to be entertained while en route, so we've included SiriusXM® Satellite Radio to get you from coast to coast without skipping a beat.<sup>1</sup>

### BOSE® sound system

Hitting the right note on every drive, the BOSE® sound system turns your TT into a twelve-speaker powerhouse, while AudioPilot® noise compensation helps maintain a consistent volume under varying speeds and road conditions. It all adds up to an acoustic listening environment that rivals any live performance.

<sup>1</sup> See Infotainment/Technology section of the Featured Content page for important information regarding Audi Navigation plus and required SiriusXM® subscriptions. <sup>2</sup> Requires compatible phone.

---

#### Audi Navigation plus

The intuitive Audi Navigation plus is available to help ensure that you'll be able to quickly input your next destination. And with the Audi traffic information feature, you can bet you'll get there without the gridlock.<sup>1</sup>

---

#### BLUETOOTH® technology

Staying connected has never been more important. That's why your TT features BLUETOOTH® mobile phone connectivity for simple, hands-free functionality. With a simple push of a button on the steering wheel, you can make and receive calls.<sup>2</sup>

---

#### SiriusXM® Satellite Radio

Go ahead. Crisscross the country. We assure you, you'll never run out of entertainment options, with over 130 channels of music, talk and news.<sup>3</sup>

---

#### Audi media

Now you're in control. The available Audi music interface helps give you seamless iPod® integration. Your iPod® can be controlled through the audio system and steering controls, and with two available SD card slots for your MP3 music, your entertainment options just keep getting better.

# We don't see safety as an option, or a luxury.

Audi engineers don't equate strength with size. Big is just big—strong is a more flexible concept. While you may not think about weight savings when it comes to strength, we'd like you to take a second and think again. ASF® aluminum construction developed by Audi engineers is a revolutionary technology that offers an innovative approach to both weight savings and strength. And Audi airbag technology is designed to deploy airbags based on seat position,<sup>1</sup> while specially constructed crumple zones give way upon impact to help mitigate potential injury in a collision. All of this, combined with the rigidity of laser seam-welded joints that enhance the strength of every Audi we make, helps diminish the impact of an unavoidable event.

## **Audi ultra®**

Heavy thinking on  
lightweight technology.

Revolutionary **Audi ultra® lightweight technology** offers an innovative approach to weight savings—a benefit you will notice in the overall efficiency,<sup>2</sup> enhanced performance and remarkable handling of the Audi TT. These unique characteristics also help to absorb the normal bumps of the road, delivering a smoother ride.

## **Rollover protection system**

Built into the TT Roadster are heavily reinforced rollover protection devices, designed to help protect you and your passenger in the unlikely event of a rollover. In addition to helping provide another level of safety, they also add to the overall visual muscle of the Roadster.

### Crumple zones

*Knautschzone* may be an ugly word, but it's a beautiful technology. German for "crumple zone," this ingenious safety feature helps dissipate the energy from a collision by spreading the impact forces around the passenger cell and away from its occupants. In doing so, it also slows the vehicle's deceleration rate, which helps to further lessen the force of impact.

### Sheet steel

A sheet-steel rear body structure combined with aluminum castings, extruded sections and aluminum sheet metal makes up the body shell of the Audi TT.

### ESC and ABS

Computerized technology that works in perfect sync with the Anti-lock Brake System (ABS), Electronic Stability Control (ESC) helps minimize any loss of stability, applying brake pressure to individual wheels and reducing throttle input to help counter oversteer or understeer when the vehicle needs it.

### Six standard airbags

Helping protect you from almost all angles are six standard airbags, front-impact airbags for driver and passenger, driver and front-passenger knee airbags, and seat-mounted, side-impact head and thorax airbags.<sup>1</sup>

1 Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and refer to your owner's manual for the proper use of the restraint systems when transporting children. 2 EPA estimates not available at time of printing. See [www.fueleconomy.gov](http://www.fueleconomy.gov) for updated information. Your mileage will vary.

ENGINE // 2.0-liter turbocharged TFSI® four-cylinder engine developing 265 hp and 258 lb-ft of torque

DRIVETRAIN // Audi quattro® all-wheel drive, six-speed Audi S tronic® dual-clutch transmission

CHASSIS // TTS tuned sport suspension, Audi magnetic ride

BRAKES // 13.4" ventilated front disc brakes with TTS logo, 12.2" ventilated rear disc brakes

PERFORMANCE // Top track speed of 155 mph,<sup>1</sup> acceleration 0-60 mph in 4.9 seconds (Coupe) and 5.1 seconds (Roadster)

<sup>1</sup> Top track speed is electronically limited in the U.S. Obey all speed and traffic laws. <sup>2</sup> 0-60-mph times will differ from model to model.

## Brag without saying a word.

We aren't the type to encourage bragging, but in this case we concede that it's inevitable. So make it count, with a potent 265-horsepower 2.0-liter TFSI engine, S quad exhaust outlets, and the strong stance and dramatic curves that showcase a performance profile that backs down to no one. Add a bold S model Audi Singleframe® grille with Aluminum-optic double-blade crossbars for distinction and a rapid-fire Audi S tronic® dual-clutch transmission featuring launch control to define its muscularity. Your final point will be made when you make the run from 0 to 60 mph in a blistering 4.9 seconds<sup>2</sup>—just in case anyone still had any doubts.

### Audi exclusive bicolor interior

A car this brash deserves an equally provocative cockpit. The available Audi exclusive bicolor interior gives you just that, with contrasting Black/Crimson Red or Black/Titanium Gray leather lining the seats, door panels, center console and floor mats. It also includes contrasting stitching on the shifter and instrument cover.

### Audi Sport

The story doesn't stop here. There's more on the full range of S, RS, and R8 Audi performance models in the **2014 Audi Sport brochure**. See your dealer or go to [audiusa.com](http://audiusa.com) for details.

Audi S line® package

19" 5-arm-rotor design (Matte Black finish)  
255/35 summer performance tires<sup>2</sup>

Audi S line® Competition package

<sup>2</sup> Tires are supplied and warranted by their manufacturer. High-performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended winter or all-season tire specified for your car or its equivalent. These high-performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at optimum levels. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices.

1. Audi Navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested Audi Navigation plus route. For mapping updates please see your Audi dealer or call 1-800-FOR-AUDI for details. 2. SiriusXM® Satellite Radio subscriptions sold separately after trial expires. Subscriptions are governed by SiriusXM® Customer Agreement (see [www.siriusxm.com](http://www.siriusxm.com)) and are continuous until you call SiriusXM® to cancel. SiriusXM® U.S. Satellite Service available only to those 18 and older in the 48 contiguous U.S.A., D.C. and Puerto Rico (with coverage limitations). 3. Requires compatible phone.

# There's a way to make an entrance without trying.

Not that the Audi TT isn't already dressed to kill, but when you opt for the Audi S line® Competition package, you make a bold statement even bolder. The S line exterior features striking Black-optic elements, including a grille surround, side mirror housings, a fixed rear wing spoiler and a lower front spoiler splitter. Setting it apart even further are a Black diffuser, Black exhaust tips, and 19" 5-arm-rotor design wheels in Matte Black finish. Plenty to ensure that your arrival will be unmistakably Audi.

## Accessories

Add a new point of view, a dash of distinction and the ultimate in self-expression with Audi Genuine Accessories. Whether you load the cargo carrier with climbing gear or add a set of sporty new wheels, we've got the accessories that will help enhance every facet of your lifestyle. Designed for seamless compatibility with your Audi,

### Fork-mount bike rack

Made of anodized aluminum, this rack features a quick-clamping device that can be secured with the included lock.<sup>2,3</sup>

### Ski and snowboard rack

Push-button, keyed locks open and close easily. Rubber-cushioned aluminum bars hold securely. Standard attachment (shown) holds two sets of skis or two snowboards. Deluxe attachment holds up to three sets of skis or four snowboards.<sup>2,3</sup>

### Valve stem caps

Emblazoned with the iconic Audi rings, these handsome caps complement the unique design of the wheels on your Audi.

### All-weather cargo mat

Custom fit for the TT. Textured material helps control load shifting. Raised lip helps contain spills and protect cargo-area carpeting from stains. (Coupe only.)

Other accessories not shown

### Audi Genuine Sport and Design Accessories

Your Audi vehicle features a bold, aggressive stance with strong, stunning lines. Enhance it by adding Audi Genuine Sport and Design Accessories. All are carefully scrutinized in the design and development process. So while they're striking in appearance, they've also passed rigorous quality assessments, including corrosion testing. If you're looking for a bolder appearance or a finishing touch, there is a solution designed by Audi that makes every mile more enjoyable—and more yours.

### Audi Genuine Alloy Wheels

Strike the perfect balance between breathtaking design and awe-inspiring performance with Audi Genuine Alloy Wheels. Audi experts have meticulously designed these wheels especially for each Audi model. They're engineered to the highest standards and endure rigorous testing to help ensure long-term quality. Experience eye-catching style that is yours and yours alone. Nothing enhances the bold, dynamic look of your Audi vehicle faster.

<sup>1</sup> See dealer for details. <sup>2</sup> All roof-rack system attachments require the base carrier bars. All attachments sold separately. <sup>3</sup> Recreational equipment and sporting equipment not included.

all pieces are backed by your vehicle's 4-year/50,000-mile limited warranty or the accessory's 12-month/12,000-mile limited warranty, whichever extends longer from the accessory purchase date! If you're looking to personalize or protect, Audi offers an intelligent solution.

#### **19" 5-arm turbo-design wheels**

Add a "twist" to turn heads at every turn. Audi Genuine Alloy Wheels are designed with style and longevity in mind. Shown in Black. Also available in Silver or White.

#### **Premium textile floor mats**

These skid-resistant, precision-fit mats are made of long-life fabric to help protect the vehicle's interior from the elements. Mats are black with silver piping and available in a set of two.

#### **All-weather floor mats**

Deep-ribbed, channeled design helps protect the floor and carpeting from water, mud, sand and snow. Black mats feature the vehicle logo and are available in a set of two.

#### **Rear wing**

Add sporty flair to the TT or TTS. Primed for painting, or available preprepared for a perfect color match and added convenience. Consult your authorized Audi dealer for available colors.

#### **Audi TravelSpace Transport Accessories**

You go almost everywhere. Give your Audi the proper invitation to be part of your adventures. Never leave the necessary gear behind. Bring it with Audi TravelSpace Transport Accessories. The list includes bike racks, ski racks, a variety of watersports equipment carriers and various sizes of cargo carriers. Wherever you go, make sure almost everything fits with a variety of intelligent and innovative solutions. Accessories designed for your life—the passionate, active part.

#### **Audi Genuine Electronics Accessories**

The illuminating technology that graces each Audi vehicle provides the inspiration for Audi Genuine Electronics Accessories. Similarly, all of these accessories are impressively advanced and inspiring. Our audio options let you enhance your listening pleasure. Other accessory options help promote more convenient travel. All are designed and tested to ensure compatibility with the vehicle's electrical systems, allowing you to enjoy every aspect of Audi technology with almost all your senses. Demand the best and drive with added confidence.

#### **Audi Guard Comfort and Protection Accessories**

Help protect what you love. Audi Guard Comfort and Protection Accessories offer functional, practical items that help keep your Audi in pristine condition. Choose from such useful items as trunk liners that help make clean-up quick and easy, or an easy-to-use storage cover that helps shield the vehicle. Use them all to help reduce wear and tear and keep the vehicle looking like new—inside and out. All are engineered to stringent Audi standards, so you can be assured of their quality and durability.
