BUICK.COM / 800.4.A.BUICK

OUR COMMITMENT

Buick's commitment to craftsmanship can be seen in the beauty of things apparent. Like sensuously sculpted sheet metal. Brilliantly burnished paint. Carefully tanned leather. But it is also a part of things hidden — of the beauty that lies within.

Like suspensions specially tuned for comfort. Engines chosen for smoothness.

Controls placed so they fall intuitively to hand.

This ethic of craftsmanship permeates every aspect of the creation of a vehicle, from design to engineering to assembly. It is a deeply held belief in a better way to build. Now discover how that commitment is offered in the 2005 Century.

CENTURY: putting luxury within reach

There's an important reason why Century holds its position in the Buick lineup: to put within reach of the many, the kind of luxury and craftsmanship that was once reserved for the few. Here is a car with beautiful style and timeless proportions. With luxurious features, many that come standard. Like a powerful 175 hp V6 engine. A smooth four-wheel independent suspension.

The security of four-wheel disc brakes. The spacious interior seats six in comfort. There's even the pure enjoyment of a standard AM/FM/CD audio system. Here is driving proof you can have a luxurious, well-crafted car at a surprisingly affordable price. Century. It's the attainable car that never forgets it's a Buick.

[ PLATES 1 & 2 ] Special Edition in Glacier Blue Metallic.

[ PLATE 3 ] Available leather-appointed interior.

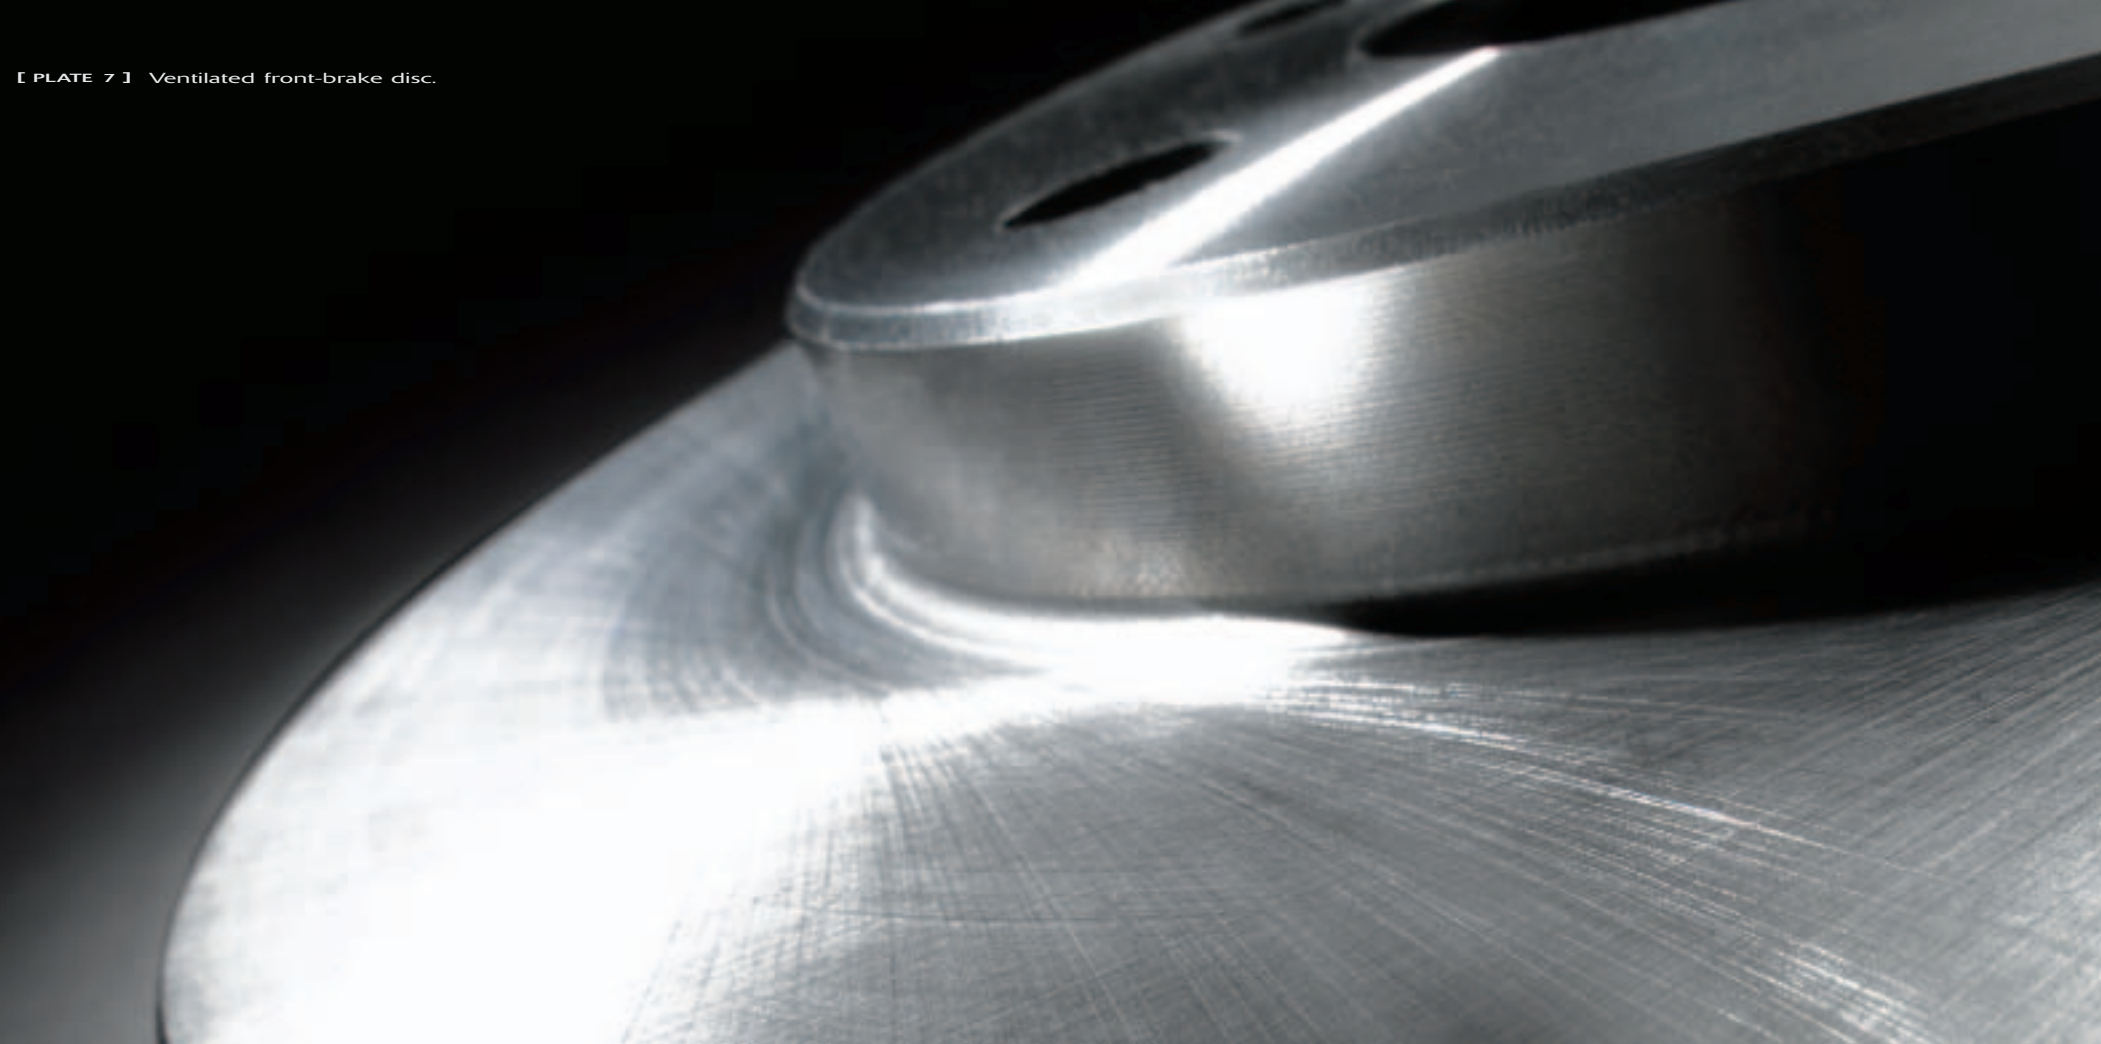

[ PLATE 4 ] Available steering wheel controls allow audio and cruise control adjustments with the touch of a finger.

from your key ring.

[ PLATE 6 ] Available automatic dual-zone climate control means personalized comfort.

\*OnStar services require vehicle electrical system and analog wireless service to be available and operating for features to function properly. OnStar uses existing emergency service providers as well as analog wireless and satellite technologies and is subject to their limitations. The U.S. Federal Communications Commission (FCC) ruled that wireless carriers will no longer be required to support the analog wireless network after February 16, 2008. After that time, if the carriers for OnStar elect to only provide digital service, OnStar service will only be available through dual-mode hardware, which may require the purchase of a system upgrade. Call 1-888-4ONSTAR (1-888-466-7827), see your OnStar Owner's Guide, or visit onstar.com for system limitations and details.

**A. 3.1L 3100 SFI V6**

The 3100 V6 has a 60° cylinder-bank angle that makes it inherently smooth. The solid cast-iron engine has a stiffened skirt that deadens vibration for a smoother ride. Sequential fuel injection precisely matches fuel delivery to each cylinder's intake stroke for smoother combustion. The 3100 V6 produces impressive horsepower and torque across a wide rpm range. In fact, it has more horsepower and torque than the standard engines found in Toyota Camry and Honda Accord.

A.

**B. OIL LIFE SYSTEM**

Changing your oil only when it really needs changing could save you a lot of time, money and inconvenience. And you'd use less of the earth's non-renewable resources while helping to protect the environment. But how could you tell when it was time for a change? You could drive a Century. The 3100 V6 is constantly recording the vital engine performance facts that affect oil life. With this data, the Oil Life System calculates oil degradation and suggests a change when one is really needed. The 3100 V6 also has spark plugs that can go up to 100,000 miles before they need replacement. Two fewer things you need to worry about.

Maintenance needs vary with different uses and driving conditions. See Owner's Manual for more information.

**C. FOUR-WHEEL DISC BRAKES**

Unlike many cars in its class, Century comes with four-wheel disc brakes as standard equipment. Disc brakes at all four wheels mean more consistent braking as well as less overheating and brake fade. Disc brakes also have an important performance advantage in unfavorable weather braking situations.

**IMPORTANT WORDS ABOUT THIS BROCHURE.**

We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models, and availability. Since some information may have been updated since the time of printing, please check with your Buick dealer for complete details. Buick reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

**New Vehicle Limited Warranty.** This warranty is for GM vehicles registered in the USA. See your Buick dealer for terms and conditions.

**Covered for 3 years/36,000 miles (whichever comes first):** The complete vehicle • Tires • Towing to your nearest Buick dealership • Cosmetic corrosion resulting from defects • Repairs made to correct any vehicle defect • No charge for most warranty repairs  
**Covered for 6 years/100,000 miles (whichever comes first):** Rust-through corrosion

**Corrosion Protection.** Buick vehicles are designed and built to resist corrosion. All body and sheet metal components are warranted against rust-through corrosion for six years or 100,000 miles, whichever comes first. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended. See your Buick dealer for terms of this limited warranty.

**Updated Service Information.** Buick dealers receive useful service bulletins about Buick products. You may purchase them from Helm Incorporated by calling 1-800-551-4123 or by visiting www.helminc.com.

**Assembly.** Buick vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Buick vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

**Engines.** Buick products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Buick products may also be used in other GM makes and models.

**A Note About Child Safety.** Always use safety belts and proper child restraints, even in vehicles equipped with air bags. Children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See your vehicle Owner's Manual and child safety seat instructions for more information.

**ENHANCE YOUR OWNERSHIP EXPERIENCE.** The Owner Center at My GMLink is a free online service that helps you make the most of your vehicle ownership.  
 • Sign up for e-mail reminders about service visits  
 • Keep an online history of services performed  
 • Read your Owner's Manual, warranty, and more, online  
 • Receive the recall notices that apply only to your vehicle  
 • Watch do-it-yourself videos and much more  
 Register today at MYGMLink.com!
