

EXPERIENCE  THE NEW BUICK

FIRST-EVER BUICK
ENVISION

Preproduction model shown. Actual model may vary.

Discover something perfectly
attuned to your sense of luxury. **THE FIRST-EVER
BUICK ENVISION** elevates travel for five to a
new level of refinement. With responsive performance, intelligent innovations
and a meticulously crafted interior, Envision was created for the well-being of you and
your travel companions. A new journey is about to begin.

It only takes an instant to form your first impression of the first-ever Envision. One press of the accelerator proves it has a **SPIRITED PERFORMANCE SUITED TO THE WAY YOU LIVE.** A glance at its elegant proportions confirms that this is a new Buick crafted to an exceptional degree of refinement. Its bold grille and jewel-like LED-accented headlamps reflect the pure driving enjoyment you'll experience in Envision. This is your kind of luxury.

Welcome inside Envision.

Step across the door sill and enter a cabin where you'll come to appreciate what's meant by the idea of **BEAUTY FROM THE INSIDE OUT**. With a modern interior centered around a console designed with innovative dual-winged doors, and standard features like Active Noise Cancellation and a seven-speaker Bose® premium audio system, Envision creates a profound sense that you're secure, connected and truly at ease.

RELAX

WHAT MAKES ONE EXPERIENCE MORE REFINED THAN ANOTHER? IT'S HOW THE DETAILS ENHANCE THE SENSATIONS YOU ENCOUNTER ALONG THE WAY.

Inspiration for the Envision interior didn't come from other vehicles. It came from the kind of places you go to relax in style. Think boutique hotels, luxurious day spas and other blissfully quiet retreats. Think understated, uncluttered design, where the quality of the finishes, the exceptional materials and the ambiance of the lighting give the space a special feeling. With Envision, the result is a conversation space where up to five passengers can travel in remarkable acoustic comfort, thanks to QuietTuning™—a combination of measures taken to help reduce, block and absorb noise. You'll be in the perfect frame of mind to enjoy Envision's full complement of standard features.

- Premium materials and standard ice-blue ambient lighting and rich wood-accented trim.
- French stitched, leather-appointed seats and standard heated and available cooled and ventilated front seats provide soothing comfort.
- Standard heated steering wheel and an eight-way adjustable driver's seat with power lumbar.
- Standard tri-zone HVAC system, sliding second-row seating with three seatback angles and heated rear outboard seats.
- Standard hands-free power liftgate, 60/40 fold-flat rear seats and a flat rear floor make loading your belongings easy.
- Standard seven-speaker Bose premium audio system.

How does QuietTuning work?

By counteracting engine noise with Active Noise Cancellation and helping to reduce outside noise with laminated glass in the windshield and front side windows.

By forming a shield using inner-door sound barriers and triple door seals.

By absorbing engine noise and vibration before it gets to the cabin, using hydraulic engine mounts.

It's something of a lost art, the art of conversation.

Envision celebrates it by inviting you into a sanctuary where conversations can flourish. Thanks to QuietTuning, it's an atmosphere all but sealed off from the interruptions of the outside world.

RESPOND

IN THE FIRST-EVER ENVISION, ADVANCED ENGINEERING SYSTEMS CREATE A NEW FEELING OF CONFIDENCE AND CONTROL FOR THE DRIVER.

What forges the connection between a car and its driver? It starts with how well a vehicle responds to driver input—the turn of a steering wheel, the press of a brake pedal, the voice command for the optional navigation guidance.¹ So imagine for a moment you're in the heated leather-appointed driver's seat, your hands wrapped around the thick leather-wrapped rim of the heated steering wheel, and your eyes scanning the gauges laid out in front of you. Now engage the Start button and feel the powerful response of Envision's turbocharged engine. Ready for the best feeling of all? Move the shift lever into D. Your every move is met by an Intelligent Twin-Clutch All-Wheel-Drive system that comes standard, ensuring sure-footed traction.

- The 2.0L ECOTEC Turbo engine delivers responsive performance with 252 hp and 260 lb-ft of torque to turbocharge every drive.
- Standard on Envision, the Intelligent Twin-Clutch All-Wheel-Drive system automatically adjusts torque to each wheel to optimize traction and responds before slip occurs.
- The HiPer Strut front suspension provides Envision with responsive steering and cornering while it helps dampen road noise and vibration.
- Safety features and driver convenience alerts that come standard include Forward Collision Alert, Side Blind Zone Alert with Lane Change Alert, Rear Cross Traffic Alert, Lane Keep Assist with Lane Departure Warning, 10 air bags,² Rear Vision Camera, Front and Rear Park Assist and a Safety Alert Seat.

¹Map coverage available in the United States, Puerto Rico and Canada. ²A NOTE ON CHILD SAFETY: Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information.

LISTEN

YOUR VOICE IS ALL YOU NEED TO ACTIVATE FEATURES OF ENVISION'S ADVANCED AUDIO AND INTEGRATED SMARTPHONE SYSTEMS. LET IT BE HEARD.

We made Envision quiet because we knew you wanted to hear what makes you happy. That's where Buick IntelliLink¹ comes in. It includes available audio features such as Pandora^{®2} and Gracenote,^{®2} which let you index and assign voice tags to your music selections. You can even use the "More Like This" function to instantly create a playlist of songs or artists similar to the one you're listening to. Many of the features found on the latest version of Buick IntelliLink can be managed three ways: using the Color Touch Radio screen, intuitive natural-language voice commands or steering-wheel-mounted controls. And there's more that IntelliLink can do to help you organize life on the road.

HOME PAGE PERSONALIZATION
keeps the Buick IntelliLink¹ features you use most front and center for access by simply reconfiguring its customizable home page using the color touch-screen.

BUICK INTELLILINK¹ offers the entertainment of SiriusXM Satellite Radio³ with Travel Link, with more than 140 channels, including commercial-free music, plus talk, sports, news, weather and more. Access to Pandora² internet radio is also available, while IntelliLink's customizable app tray allows you to organize the home screen according to your preferences.

¹Full functionality requires compatible Bluetooth[®] and smartphone. Some devices require USB connectivity.
²Data plan rates apply. ³SiriusXM audio and data services each require a subscription sold separately, or as a package, by SiriusXM Radio, Inc. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change. Sirius, XM, SiriusXM and all related marks and logos are trademarks of SiriusXM Radio, Inc.

GUIDE

TRAVEL WITH THE ENVISION AND YOUR JOURNEY IS ACCOMPANIED BY A HOST OF AVAILABLE SAFETY INNOVATIONS.

On the first-ever Envision, the available Surround Vision Camera system uses four micro-cameras embedded in the vehicle to provide the driver with a bird's-eye view around the vehicle. When you're parking, checking the monitor can help you avoid obstacles in your blind spots and navigate tight spaces. Forward Collision Alert warns you if it senses a potential collision with a detected vehicle on the road in front of you. If the vehicle is also equipped with available Front Automatic Braking, the system can automatically engage the brakes to help reduce the collision's severity if a front-end collision is imminent and the driver isn't braking.

Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle's Owner's Manual for important feature limitations and information.

■ **AVAILABLE SURROUND VISION CAMERA** A first for Buick, it provides a bird's-eye view of what's around you. Multiple cameras help you avoid obstacles, reduce blind spots and navigate even the tightest spaces with clarity and confidence.

◆ **SAFETY ALERT SEAT** When a collision-avoidance technology such as Lane Departure Warning triggers an alert, the Safety Alert Seat issues a warning of its own. The left and/or right seat bolsters gently vibrate to signal the direction of the approaching hazard. So, you can stay aware of your surroundings without taking your eyes off the road.

● **STANDARD REAR VISION CAMERA** To help you better navigate while backing up, the Rear Vision Camera shows you guidelines and live images of what's behind you on the 8-inch diagonal Color Touch Radio screen.

MANEUVER

ENVISION IS A NIMBLE SUV WITH ITS SMART SIZE AND INGENIOUS TECHNOLOGIES SUCH AS AUTOMATIC PARK ASSIST.

Available Automatic Park Assist uses ultrasonic sensors and clear driver cues to steer Envision into parallel and perpendicular parking spaces. Sensors search for an available space. Once engaged and in reverse, the system automatically steers into the space while you control the brake and shift lever. Here are other ways Envision helps you maneuver.

REAR CROSS TRAFFIC ALERT When you're backing out of a parking space, Rear Cross Traffic Alert technology uses radar to detect vehicles approaching your Envision and alerts you if it detects a vehicle within 65 feet of either side of yours.

FORWARD COLLISION ALERT This technology can help you to prevent frontal crashes by sensing when you are approaching a detected vehicle in front of you too quickly and alerting you with audible and visual warnings and vibration from the Safety Alert Seat.

FRONT AUTOMATIC BRAKING Available Front Automatic Braking technology senses when a front-end crash is imminent and then can automatically brake to help you reduce crash severity or help avoid colliding with the detected vehicle ahead in some low-speed situations

LANE CHANGE ALERT WITH SIDE BLIND ZONE ALERT Lane Change Alert warns you when detected vehicles are approaching from behind when you're changing lanes. Side Blind Zone Alert provides side-mirror alerts when a detected vehicle enters your blind zone.

LANE KEEP ASSIST WITH LANE DEPARTURE WARNING To help drivers avoid unintentionally drifting out of their lane when turn signals are not activated, Lane Keep Assist provides gentle steering wheel turns, and, if necessary, audible and visual lane-departure alerts.

Dramatic winged headlamps, athletic lines,
sculpted LED taillamps and a rear spoiler integrated
seamlessly into the exterior design elevate
Envision's aerodynamic form and function.

CONNECT

AN AVAILABLE WI-FI® HOTSPOT¹ PROVIDES A MORE POWERFUL CONNECTION THAN A SMARTPHONE OR MOBILE HOTSPOT.

4G Wi-Fi now travels with you. Stay connected and move effortlessly from home to work to just about anywhere without losing touch. Stream movies and TV on the go, using your favorite apps.

The available built-in Wi-Fi hotspot¹ supports up to seven devices, so everyone can surf, scan, create, post and game their way through any journey at 4G speed.

Any time your vehicle is on, your hotspot is available and ready to connect to your devices, so it's easy to use. Our stronger signal means you have a fast and reliable connection. And because the built-in Wi-Fi hotspot is powered by your vehicle, you're not reliant on your mobile device battery.

Your first 3 months or 3GB of data (whichever comes first) is included with your new Buick. After that, select a plan from OnStar that's right for you.

Not sure how much data you need for your in-vehicle Wi-Fi hotspot? Our data calculator (att.com/att/onstardatacalc) will help you visualize data usage for email, streaming music, social media and more.

¹Requires a compatible mobile device, active OnStar service and data plan. 4G service available in select markets. Visit onstar.com for coverage map, details and system limitations.

ONSTAR

STANDARD FOR 6 MONTHS, THE ONSTAR GUIDANCE PLAN¹ (TRIAL EXCLUDES HANDS-FREE CALLING MINUTES) LETS YOU CONNECT TO A SPECIALLY TRAINED ONSTAR ADVISOR JUST BY PUSHING THE BLUE ONSTAR BUTTON IN YOUR ENVISION.

EMERGENCY Automatic Crash Response² This feature can connect you to an OnStar Advisor immediately after a crash to help get you the care you need even if you can't ask for it. Using Injury Severity Prediction technology, Advisors can help you get the right care right away.

Emergency Services One push of the red emergency button gives you a priority connection to an OnStar Advisor who can direct emergency services to your exact location and offer critical assistance until help arrives. With OnStar, you're never alone.

Crisis Assist In severe weather conditions or a crisis, Advisors can provide a fast, knowledgeable resource if you need emergency assistance, evacuation routes and other resources. OnStar can also contact family members for you.

Roadside Assistance³ If you're stranded, have a flat tire or need a tow truck, just ask an OnStar Advisor to get help to your exact location to get you back on the road quickly.

SECURITY Stolen Vehicle Assistance⁴ If your car is stolen, once it's been reported, Advisors can pinpoint its location, slow the vehicle if conditions are safe and even prevent it from being restarted. And with Theft Alarm Notification, if your car alarm sounds, we'll let you know via text, email and/or a phone call. One simple call puts a team into action to help recover your car quickly and safely.

NAVIGATION Turn-by-Turn Navigation⁵ Getting directions is as easy as pushing a button and telling an Advisor where you want to go. Directions are quickly downloaded to your car, and a voice calls out every turn. An Advisor can also help you with a database of more than 14 million points of interest. To plan routes in advance, you can send destinations to your vehicle through an Advisor or the myBuick mobile app.⁶

ATYOURSERVICE⁷ Discover value on everyday purchases while on the go. Get easy access to offers at restaurants, gas stations, retail stores and more. AtYourService offers can be accessed through your myBuick mobile app⁶ or an OnStar Advisor.

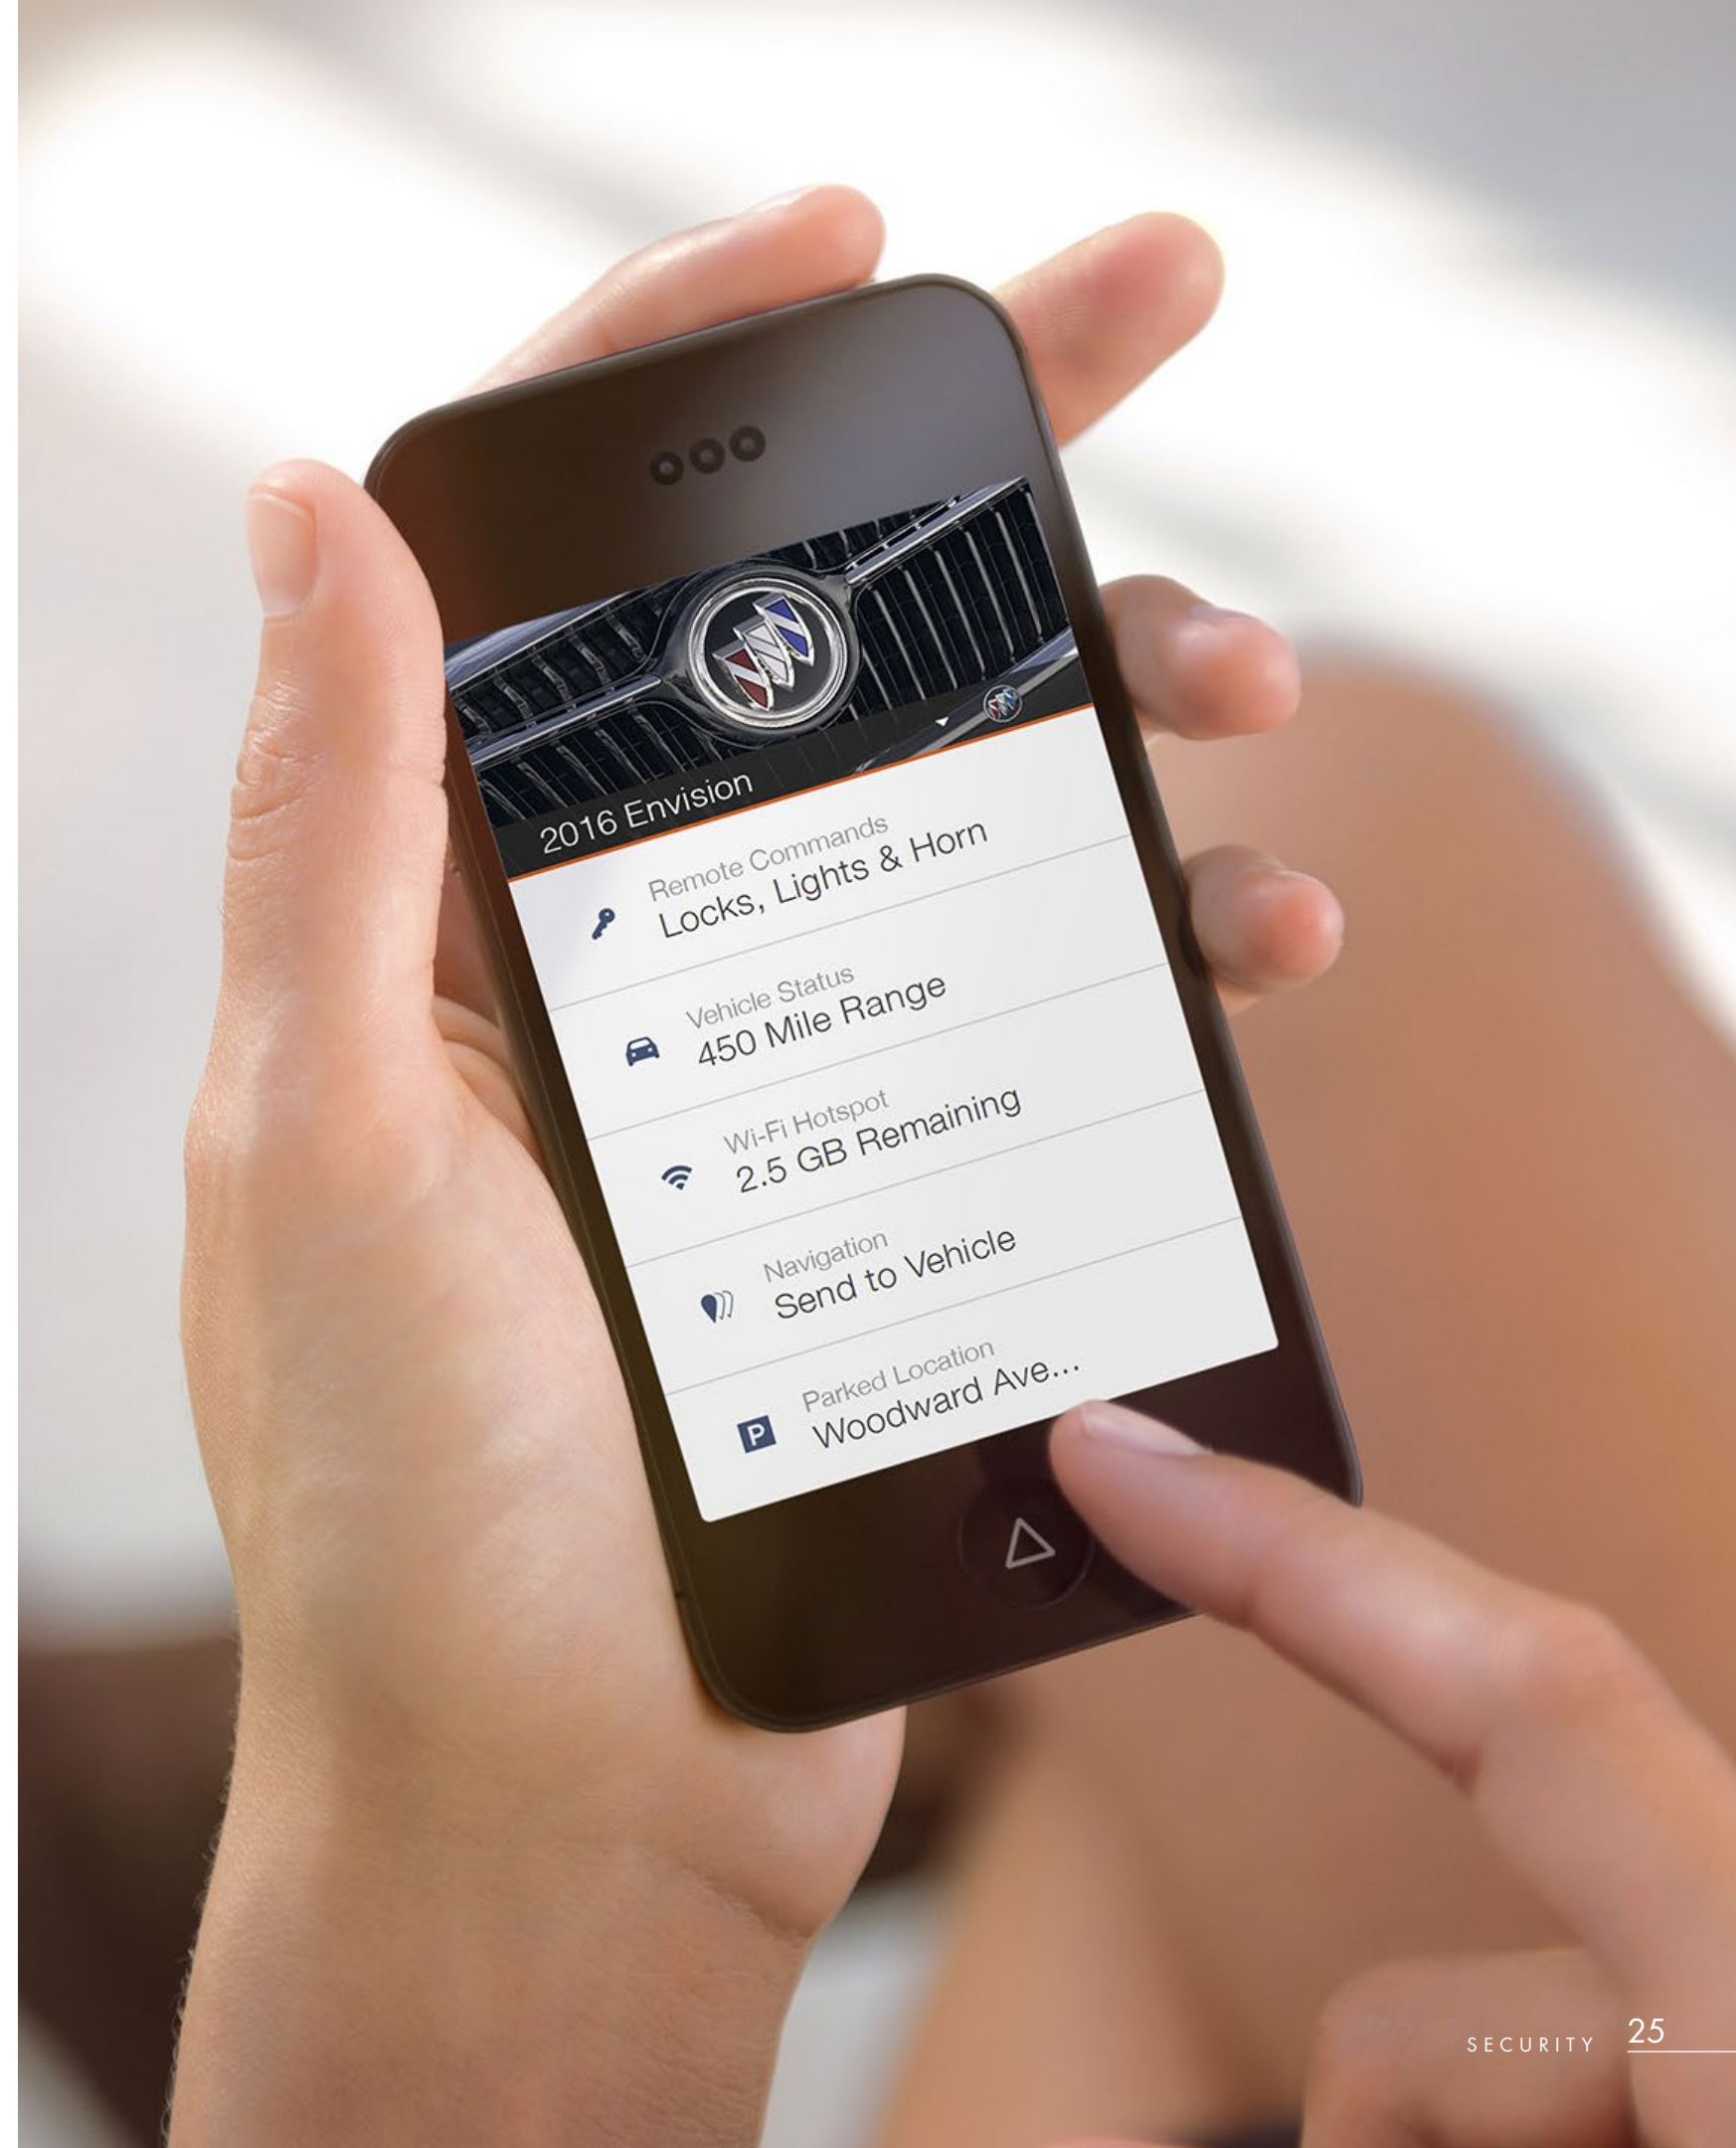

VEHICLE MANAGER Advanced Diagnostics⁸ This feature can alert you when something's going on under the hood. After running a check on your vehicle's key systems, Diagnostic Alerts can send you a monthly report or real-time alerts available by email or text, detailing its findings. And with Proactive Alerts (if available), you can get a warning about potential issues with key components such as the battery, fuel pump, fuel pressure sensor and starter motor before they become a problem.

ONSTAR HANDS-FREE CALLING⁹ This feature is a wireless service built into your vehicle so you can easily and safely make and receive calls while on the road.

MYBUICK MOBILE APP⁶ Enjoy the ultimate ownership experience through convenient control and management of your vehicle from almost anywhere. If properly equipped, you can remotely start your vehicle, locate your vehicle on a map, lock or unlock your doors, send destinations to your car, honk your horn and flash your lights. The services of the myBuick mobile app are included for 5 years on new vehicles. To download the myBuick mobile app⁶ to your smartphone, go to the App Store of iTunes[®] or Google Play.[™]

REMOTE ACCESS¹⁰ With Remote Access, an OnStar Advisor can send a remote signal to lock or unlock your doors or honk your horn and flash your lights. If properly equipped, you can even use your myBuick mobile app⁶ to remote-start the vehicle from virtually anywhere.

¹Visit onstar.com for coverage map, details and system limitations. ²Visit onstar.com for vehicle availability, details and system limitations. OnStar acts as a link to existing emergency service providers. Not all vehicles may transmit all crash data. ³Roadside service provided by Allstate Roadside Services. ⁴Services vary by model and conditions. Visit onstar.com for vehicle availability, details and system limitations. Theft Alarm Notification features vary by make and model. Requires factory-installed theft-deterrent system, Security or Guidance Plan and selection of notification communication preference(s). Vehicles must be locked electronically to arm the factory-installed theft-deterrent system. Messaging and data rates apply. ⁵Requires Guidance or Navigation Add-On Plan. Visit onstar.com for coverage map. Services vary by model. ⁶Requires active OnStar service, compatible device, factory-installed remote start and power locks. Data rates apply. Visit onstar.com for details and system limitations. ⁷Not available on Basic Plan. Valid offers can vary. Check AtYourService through the myBuick mobile app for latest offers. ⁸Capabilities vary by model. Visit onstar.com for details and system limitations. Message and data rates may apply. Requires active OnStar service, email address on file and enrollment in Advanced Diagnostics. Proactive Alerts are designed to help predict specific types of issues based on information collected from the vehicle. Other factors may affect vehicle performance. Not all issues will deliver alerts. In certain scenarios, a dealer service check may be required to confirm the accuracy of the Proactive Alert. ⁹OnStar Hands-Free Calling requires an existing OnStar service contract and available minutes. Not available in certain markets. Visit onstar.com for coverage map, details and system limitations. ¹⁰Visit onstar.com for coverage map, details and system limitations. Services vary by model and conditions. Unlock feature requires automatic locks. Remote Start requires a factory-installed remote-start system.

IMPORTANT WORDS

ENVISION
INFORMATION.

Since some information may have been updated since the time of printing, please check with your Buick dealer for complete details. Buick reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

NEW-VEHICLE LIMITED WARRANTY This warranty is for GM vehicles registered in the USA. See your Buick dealer for terms and conditions.

4 years/50,000 miles (whichever comes first): Bumper-to-Bumper Limited Warranty. The entire vehicle is warranted for repairs, including parts and labor, to correct defects in materials or workmanship. The warranty covers towing to the nearest Buick dealership, and there is no deductible for warranty repairs during the warranty period. The warranty transfers automatically with vehicle ownership during the warranty period.

6 years/70,000 miles (whichever comes first): Transferable Powertrain Limited Warranty plus Roadside Assistance and Courtesy Transportation.

6 years/100,000 miles (whichever comes first): Body and sheet metal components are warranted against rust-through corrosion.

EXPERIENCE BUICK PROTECTION Every 2016 Buick model includes a maintenance program that covers the first two visits of oil and filter changes, tire rotations and 27-point inspections for up to 2 years or 24,000 miles, whichever comes first (does not include air filters). The program is fully transferable to subsequent owners. See participating dealer for other restrictions and complete details.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES

Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New-Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.

ASSEMBLY Buick vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Buick vehicles with different or differently sourced components than originally scheduled. Since

some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

ENGINES Buick products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Buick products may also be used in other GM makes and models.

TRAILERING AND OFF-ROAD DRIVING INFORMATION Please go to buick.com and carefully review the vehicle Owner's Manual for important safety information about trailering or off-road driving in your vehicle.

A NOTE ON CHILD SAFETY Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information.

FLEET ORDERS Some standard content may be deleted with fleet orders. See dealer for details.

TAKE OWNERSHIP TO THE NEXT LEVEL Create an Owner Center account to gain unrestricted access to everything you need to get the most out of your new vehicle. Receive alerts and service offers, schedule service, view vehicle-specific how-to videos and check service records. All online, anytime. Go to my.buick.com to take a tour or register your Buick today.
