## GALLARDO COUPÉ

### TECHNICAL SPECIFICATIONS

The Gallardo Coupé has set new standards in the world of superior, high-performance sports cars. No other sports car combines luxury and performance with such skill - something which compelled an international jury to vote it "The Most Beautiful Car in the World" in its class. Now you can have the opportunity of customizing it to your demands so you can have your very own example of "The Most Beautiful Car in the World".

# TECHNICAL SPECIFICATIONS

<b>CHASSIS AND BODY</b>	<b>LAMBORGHINI GALLARDO COUPÉ</b>
Frame	Structural aluminium space frame, based on extruded aluminium parts welded to cast aluminium joint elements
Body	Aluminium with thermoplastic "hang-on" parts
Suspension	Aluminium double-wishbone front and rear suspension system, anti-roll bar, anti-dive and anti-squat
ESP	Full ESP system with ABS, ASR and ABD
Brakes	Power vacuum, aluminium alloy callipers: 8-cylinder front callipers and 4-cylinder rear callipers
Ventilated discs (front - rear)	Ø 365 x 34 mm - Ø 335 x 32 mm
Steering	Power-assisted rack and pinion
Tires (front - rear)	Pirelli P ZERO 235/35 ZR 19 - 295/30 ZR 19
Wheels (front - rear)	Aluminium alloy: 8.5" x Ø 19" - 11" x Ø 19"
Kerb-to-kerb turning circle	11.5 m
Mirrors	External mirror with electrical folding system
Rear spoiler	Electronically controlled
Airbags	Front "dual-stage" driver and passenger airbags, side "head-thorax" airbags

## ENGINE

Type	10 cylinders V 90°, DOHC 4 valves, 18° crankpin offset
Displacement	4961 cc
Bore and stroke	Ø 82.5 mm x 92.8 mm
Intake system	Variable geometry
Valve gear	Chain-driven, intake and exhaust continuously variable valve timing, electronically controlled
Compression ratio	11:1
Maximum power	382 kW (520 ps/520 hp) at 8000 rpm
Maximum torque	510 Nm at 4250 rpm
Emission control system	Catalytic converters with lambda sensors
Cooling system	Two water radiators + gearbox oil cooler + engine oil cooler
Engine management system	Electronic Lamborghini L.I.E., with individual static ignition, multipoint sequential fuel injection, drive-by-wire system, OBD system
Lubrication system	Dry sump

## DRIVETRAIN

Type of transmission	Permanent 4-wheel drive with viscous traction system
Gearbox	6-speed + reverse Optional: robotised sequential e-gear system with actuation by paddles or the steering column
Clutch	Double plate, Ø 215 mm
Rear differential	45 % limited slip
Front differential	Slip limitation by ABD function

## PERFORMANCE

Top speed	315 km/h (196 mph)
Acceleration (0 - 100 km/h [0 - 62 mph])	3.95 sec.

## DIMENSIONS

Wheelbase	2560 mm
Overall length	4300 mm
Overall width	1900 mm
Overall height	1165 mm
Track (front - rear)	1622 mm - 1592 mm
Weight ("dry" - no fuel)	1430 kg
Weight distribution (front - rear)	Front 42% - rear 58%

## TANK CAPACITIES

Fuel tank	90 litres
Engine oil	10 litres
Engine coolant	20 litres

## CONSUMPTION\*

Manual and e-gear  
(6-speed)

Urban cycle	24.8 l/100 km
Extra urban cycle	12.4 l/100 km
Combined	17.0 l/100 km
CO <sub>2</sub> emission	400 g/km

## CONSUMPTION USA\*\*

Manual and e-gear  
(6-speed)

Urban cycle	12 mpg
Extra urban cycle	18 mpg
Combined	14 mpg

\* In accordance with Dir. EC/1999/100

\*\*In accordance with US EPA guidelines

## GALLARDO SPYDER

### TECHNICAL SPECIFICATIONS

The Gallardo Spyder is the first convertible Lamborghini with an electric fold-down roof. Thanks to its exceptional performance and unique design, it is the ultimate convertible sports car in its class. Now you can make it the ultimate convertible sports car in your class. Customize the Gallardo Spyder to your demands and make it even more unique.

## **GALLARDO SUPERLEGGERA**

### **TECHNICAL SPECIFICATIONS**

The Lamborghini Gallardo Superleggera stands for an extremely sporty driving experience which has been thought out down to the very last detail. A sports car whose only mission is to win any head-to-head on the road. Lighter materials were used to reduce its weight by 100 kg, which - coupled with an extra 10 hp - boosts its performance significantly. The result is the ultimate sports car, unique in its class. With a range of different colors and trims, you can customize your car according to your own tastes.

# TECHNICAL SPECIFICATIONS

<b>CHASSIS AND BODY</b>		<b>LAMBORGHINI GALLARDO SUPERLEGGERA</b>
Frame	Structural aluminium space frame, based on extruded aluminium parts welded to cast aluminium joint elements	
Body	Aluminium with thermoplastic "hang-on" parts	
Engine Bonnet	Carbon fiber bonnet with polycarbonate transparent part	
Suspension	Aluminium independent-wishbone front and rear suspension system, anti-roll bar, anti dive and anti-squat	
ESP	Full ESP system with ABS, ASR and ABD	
Brakes	Power vacuum, aluminium alloy callipers: 8-cylinder front callipers and 4-cylinder rear callipers	
Ventilated discs (front - rear)	Ø 365 x 34 mm - Ø 335 x 32 mm	
Steering	Power-assisted rack and pinion	
Tyres (front - rear)	Pirelli P ZERO Corsa 235/35 ZR 19 - 295/30 ZR 19	
Wheels (front - rear)	Aluminium alloy: 8.5" x Ø 19" - 11" x Ø 19"	
Kerb-to-kerb turning circle	11.5 m	
Rear spoiler	Fixed wing	
Airbags	Front "dual-stage" driver and passenger airbags, side "head-thorax" airbags only on standard seats	

## ENGINE

Type	10 cylinders V 90°, DOHC 4 valves, 18° crankpin offset
Displacement	4961 cc
Bore and stroke	Ø 82.5 mm x 92.8 mm
Intake system	Variable geometry
Valve gear	Chain-driven, intake and exhaust continuously variable valve timing, electronically controlled
Compression ratio	11:1
Maximum power	390 kW (530 ps/530 hp) at 8000 rpm
Maximum torque	510 Nm at 4250 rpm
Cooling system	Two water radiators + gearbox oil cooler + engine oil cooler
Engine management system	Electronic Lamborghini L.I.E., with individual static ignition, multipoint sequential fuel injection, drive-by-wire system, OBD system
Lubrication system	Dry sump

## DRIVETRAIN

Type of transmission	Permanent 4-wheel drive with viscous traction system
Gearbox	6-speed + reverse e-gear version as standard, manual gear as free option
Gears	I = 1:3.313; II = 1:2.053, III = 1:1.458; IV = 1:1.138; V = 1:0.939; VI = 1:0.784;
Final Drives	1:1.320
Clutch	Double plate, Ø 215 mm
Rear differential	45 % limited slip
Front differential	Slip limitation by ABD function

## PERFORMANCE

Top speed 315 km/h (196 mph)

Acceleration

(0 - 100 km/h [0 - 62 mph]) 3.8 sec.

## DIMENSIONS

Wheelbase 2560 mm

Overall length 4300 mm

Overall width 1900 mm

Overall height 1165 mm

Track (front - rear) 1622 mm - 1592 mm

Weight ("dry" - no fuel,  
4WD-manual) 1330 kg (EU), 1360 kg (USA)

Weight distribution  
(front - rear) Front 42% - rear 58%

## TANK CAPACITIES

Fuel tank 90 litres

Engine oil 10 litres

Engine coolant 20 litres

## CONSUMPTION\*

**GALLARDO COUPÉ/GALLARDO SPYDER**

**EQUIPMENT**

## **EQUIPMENT (GALLARDO COUPÉ/GALLARDO SPYDER)**

---

4-wheel drive with viscous coupling  
6-speed manual gearbox  
ABS  
Adjustable wiper frequency  
Air filters, heat deflectors, power steering cooler  
Alcantara roof lining and pillars  
Autolock  
Automatic folding rear window/wind protector (Gallardo Spyder)  
Bi-xenon headlights  
Black brake callipers (front and rear)  
Car cover set  
"CASSIOPEA" silver-colored rims with standard tires  
CI logo on rims (black/white)  
Driver and passenger airbags  
Electric windows  
Electronically controlled rear spoiler  
ESP  
Fully automatic air-conditioning system (dual zone with solar sensor)  
Headlight washer  
Heated side mirrors (external)  
Illuminated glove box  
Illuminated make-up mirror  
Illuminated trunk  
Immobilizer  
Lamborghini multimedia system  
Lights-on warning  
Manual seats with electrically adjustable backrest  
Multifunctional TFT display  
Non-smoker version  
On-board computer  
Outside temperature display  
Remote control and central locking  
Side airbag  
Side mirrors with power adjustment and folding function  
Soft top in black (Gallardo Spyder)  
Tool kit  
TPMS (USA)  
USB interface (or CD changer)  
White side indicators (not for USA)

---

#### **4-wheel drive with viscous coupling**

The centrally positioned viscous coupling is used to connect the front and rear axles in 4-wheel drive vehicles, providing active traction control. Excess torque on the rear axle is automatically fed to the front to ensure that optimum grip is maintained at all times.

#### **Immobilizer**

When the Lamborghini L.I.E. engine management system is active, data stored on the ignition key is automatically checked. The engine can only be started if this data matches the system files. In the event of an attempted break-in, an acoustic and visual alarm is triggered.

#### **Lamborghini multimedia system**

The multimedia system boasts four speakers, an extensive radio system (30-station memory, automatic station search, traffic reports, etc.), a 6-disc CD changer and two MP3 memory card slots.

#### **Multifunctional TFT display**

The driver information system is located between the speedometer and tachometer. The following functions are shown on the TFT display: radio, on-board diagnosis, fuel levels, door and trunk check, external temperature, driving information and warnings.

#### **Electronically controlled rear spoiler**

The electronically controlled rear spoiler improves the downforce of the car. It is activated when the car exceeds 120 km/h and closes again once the speed falls below 90 km/h.

#### **On-board computer**

The driver information system can also be fitted with an on-board computer which can monitor the following functions: average speed, average fuel consumption, current fuel consumption, journey time and how far you can drive with the gas in your tank. The on-board computer contains also a lap timer function.

#### **TPMS (Tire Pressure Monitor System)**

This system is able to recognize low tire pressure in one or more tires at the same time; a warning lamp and on-board display will show which tire/tires lack pressure.

#### **USB interface**

The USB interface is placed in the front trunk. Please note that it's not possible to have the USB interface and the CD changer together.

# GALLARDO SUPERLEGGERA

## EQUIPMENT

## **EQUIPMENT (GALLARDO SUPERLEGGERA)**

---

4-wheel drive with viscous coupling  
ABS  
Adjustable wiper frequency  
Air filters, heat deflectors, power steering cooler

## **FUNCTIONAL AND PERFORMANCE OPTIONS**

### **(GALLARDO COUPÉ/GALLARDO SPYDER)**

---

Anti-theft system  
Bluetooth  
Carbon ceramic brakes  
Coming home function  
e-gear  
Electrically adjustable and heated seats  
Heated seats  
iPod preparation  
Lifting system  
Navigation system  
Premium audio system  
Rear-view camera  
TV

---

### **Anti-theft system**

The anti-theft system helps protect against break-in and theft. The system offers the following functions:

- Interior monitoring
- Towing protection system
- Trunk, door, ignition and radio monitoring
- Activated 30 seconds after the doors are locked
- Attempted break-in triggers an acoustic and visual alarm

### **Bluetooth**

The Bluetooth connection means up to four cell phones from different manufacturers can be connected wirelessly to the car's speakerphone system. A standard cordless connection allows cell phone data to be transmitted onto the Lamborghini multimedia system display, where all cell phone functions can then be called up (including voicemail, phone book and call waiting). The following additional functions are also included:

- Volume control for the hands-free function during a call
- Audio mute during incoming/outgoing calls
- Phone numbers can be entered via a control dial and appear directly on the display of the Lamborghini multimedia system
- Memory for up to 500 phone book entries in the Lamborghini multimedia system

### **Heated seats**

With several different temperature settings, the heated seats for driver and passenger seats provides extra comfort, especially in the winter. The seat heating is controlled via the air conditioning panel.

### **iPod preparation**

The iPod port is located in the glove compartment and enables an iPod or iPod nano to be connected to the audio system. Titles and playlists can then be viewed on the KENWOOD sound system display. The iPod preparation is not available in conjunction with the USB interface or CD changer.

### **Premium audio system\***

The premium audio system offers a high-end sound experience with top-quality performance. It consists of a MOSFET-based amplifier with HPL (high power lightweight) sound in combination with 320-watt RMS speakers.

\* Availability of this option will be advised later by Automobili Lamborghini official communication.

## FUNCTIONAL AND PERFORMANCE OPTIONS

### Navigation system

The navigation system screen displays comprehensive route information in high-quality map form, complemented by simplified directions displayed on the on-board computer. The system offers the following features:

- Adjustable map colour, type and content settings
- Vehicle orientation indicator
- Compass
- Saved destination database
- Traffic/motorway information
- Voice instructions

### TV

The television is integrated into the navigation system, and receives conventional analogue transmissions as well as featuring an A/V socket for connecting external devices. Teletext pages can also be viewed.

(Note: for safety reasons, the television display is automatically switched off when the car is moving. TV audio is however still available.)

### Rear-view camera

The spoiler-mounted rear-view camera facilitates controlled, accurate parking. The camera is automatically activated when reverse gear is engaged, and can also be switched on manually. The colour image is clearly displayed on the LCD screen.

#### **e-gear**

e-gear is an automated transmission with electro-mechanical control of the gear shifts and clutch. The system removes the need for a clutch pedal, and the conventional gear lever is replaced by a pair of steering wheel-mounted paddles.

The system provides the following modes:

- Manual
- Automated sequential
- Three programmes: Normal, Sport and Low Adherence

#### **Coming home function**

The coming home function is a programmable remote control fitted above the sun visor on the driver's side. Use it to control up to three devices such as your garage door, home lighting, etc.

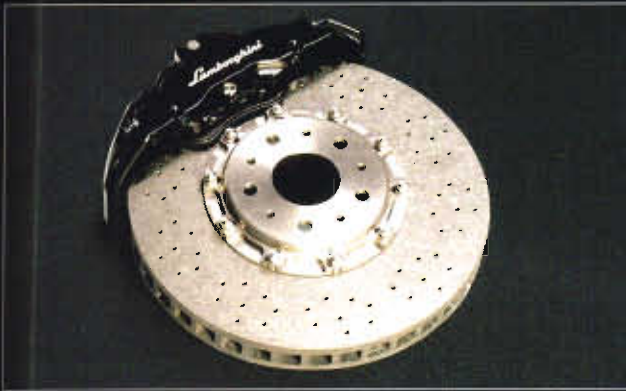

## FUNCTIONAL AND PERFORMANCE OPTIONS

### **Electrically adjustable and heated seats**

The heated seats can be electrically adjusted via integrated electronic controls. The sitting position can be adjusted lengthways, as can the height, backrest angle and lumbar position. Seat heating can be controlled by the keypad on the air conditioning system.

#### **Carbon ceramic brakes**

The carbon ceramic brakes are equipped with 380 mm x 38 mm brake pads at the front and rear and 6-piston callipers. This technology reduces the pressure that has to be applied to the brake pedal and shortens braking distances without causing excessive wear to the brakes. In comparison to standard braking systems, carbon ceramic brakes are lighter and are guaranteed to last longer. With its better handling, increased responsiveness and efficiency, this cutting-edge braking technology is ideal for the road.

**Important:** The brake pads need to be built in with the utmost care. If they are cold, the brakes may screech. Avoid any damage to the surface.

## FUNCTIONAL AND PERFORMANCE OPTIONS

### **Lifting system**

The lifting system raises the level of the front axle by 45 mm for smooth driving on uneven surfaces.

# FUNCTIONAL AND PERFORMANCE OPTIONS (GALLARDO SUPERLEGGERA)

---

4-point harnesses  
Bluetooth  
Carbon ceramic brakes  
Carpet "Superleggera"  
Fire extinguisher  
Lamborghini multimedia system (with CD changer and Navigation system)  
Net on rear wall, net on passenger side and glove box  
Package "Superleggera" in carbon fiber  
Pre-preparation for on track tubolar frame unit  
Rear-view camera  
Rear wing in carbon fiber  
Special car cover (for rear wing)  
Tire repair kit (free option)  
Track tubolar frame unit

## FUNCTIONAL AND PERFORMANCE OPTIONS

**Fire extinguisher**

**Track tubular frame unit** (The track tubular frame unit is not available for USA.  
A pre-preparation for on track tubular frame unit is also available.)

**Rear-view camera**

**Rear wing in carbon fiber**

The rear-view camera is only available with the rear wing and the Lamborghini multimedia system.

For the rear wing you can also order a special car cover.

**Carpets "Superleggera"**

**4-point harnesses**

(The 4-point harnesses are not available for USA/Middle East)

## **PACKAGES**

---

### **Comfort ride**

In comparison to the standard or sporty version, the comfort ride is not quite as hard. This means it offers better comfort on longer journeys - but still with the same sporty feel.

### **Comfort seats**

The comfort seats are completely electrically adjustable and offer even more settings than the standard versions - not only can the back section be continually adjusted as a whole, but also the lumbar support section. Additionally, softer materials have been used in its production, making the experience even more comfortable. The comfort seats are heated and special stitching gives them a special touch.

## **COMFORT PACKAGE**

---

### **THE COMFORT PACKAGE INCLUDES:**

- Comfort ride for better driving comfort
- Completely electrically adjustable and heated seats
- Inside of the seat with comfort upholstery and special stitching

## PACKAGES

The Lamborghini Gallardo always challenges drivers to push themselves to their limits. And for those who just can't get enough, the Sports package takes this extreme machine to another level. The tauter chassis and sports shock absorbers make for a harder ride, while the suede-covered steering wheel guarantees complete control, even in extreme situations.

Steering wheel in suede\* Nero Perseus (black)

## **SPORTS PACKAGE**

---

### **THE SPORTS PACKAGE INCLUDES:**

- Suede\* sports steering wheel
- Sports chassis/sports shock absorbers

\* After a time, suede can eventually show signs of use.

## PACKAGES

The Lamborghini Gallardo is a high-performance sports car. But that doesn't mean it's unsuitable for longer journeys by road: with the travel package, there's nothing to keep you from taking a quick trip away somewhere. The travel package includes a storage pocket on the driver's side, a luggage net behind the seats and a cup holder between the driver and passenger seats.

Cup holder between the driver and passenger seats

## TRAVEL PACKAGE

---

### THE TRAVEL PACKAGE INCLUDES:

- Cup holder
- Luggage net behind the seats
- Storage compartment by the steering wheel

Luggage net behind the seats

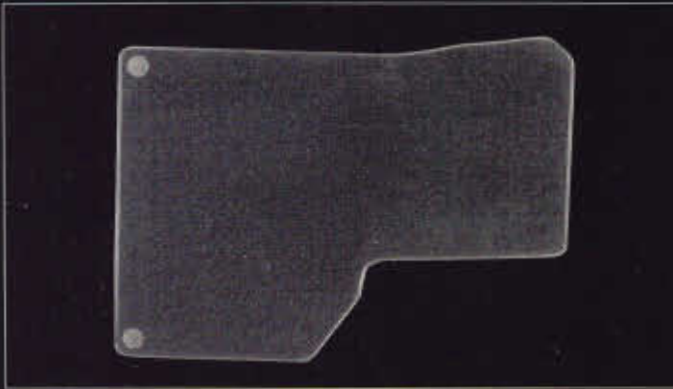

Storage compartment by the steering wheel

## PACKAGES

The Lamborghini Gallardo is not just a fun drive for the summer. Whatever the weather, the standard 4-wheel drive and optional winter package means you're fully equipped for any driving conditions.

Black footwell mats

Power socket in trunk

Heated washer nozzle

## **WINTER PACKAGE**

### **BICOLOR SPORTIVE INTERIOR FINISH (OPTIONAL FEATURE)**

The interior is fitted out in two colors.

The upper part of the dashboard, the pillars, the sides of the seats, the headrests and the outer door trims are in the chosen basic color.

The inner door trims, the lower part of the dashboard and the inner sections of the seats are in the chosen contrasting color.

The stitching is available either in the basic color or in the contrasting color.

### **LEATHER/ALCANTARA INTERIOR FINISH (OPTIONAL FEATURE)**

The leather/alcantara finish can be combined with unicolor, bicolor elegant or bicolor sportive.

Alcantara is available in the following colors:

- Nero Perseus
- Giallo Taurus

In this finish, the inner sections of the seats, lower part of the dashboard and door trims are fitted out in alcantara.

### **UNICOLOR SPORTIVE INTERIOR FINISH (OPTIONAL FEATURE)**

The interior is fitted out in the basic color.

The inner door trims, inner seat sections and the lower part of the dashboard are in perforated leather in the chosen basic color.

The stitching and piping is available either in the basic color or in the contrasting color.

### **THE AD PERSONAM CUSTOMIZATION PROGRAM**

If you are someone who believes that individuality is all in the details and you enjoy pushing the boundaries of convention, we recommend our Ad Personam customization program for interior. It enables you to tailor the design of your Lamborghini with a lot of individual ideas not included in the Colors & Trims brochure. So why not create a Lamborghini that is as unique as you are?

## INTERIOR

### **Q-Citura**

The unicolor, bicolor sportive, bicolor elegant and leather/alcantara trim can be further refined with the exclusive Q-Citura diamond quilting stitch. Q-Citura covers the following interior areas: door panels, central section of the seats, armrest between driver and passenger seats, behind the seats and the roof liner. Q-Citura cannot be combined with perforated leather.
