Bolster your street cred.

Behind the wheel of the all-new 2014 Fiesta ST, the rush is always on. Its 1.6L EcoBoost® I-4 engine delivers 197 horsepower¹ for potent acceleration. An "overboost" feature can extend peak torque for up to 17 seconds at a time. And a 6-speed manual trans with leather-wrapped shift knob lets you stick every shift. Supportive bolsters on the RECARO® partial leather-trimmed front seats² grip you firmly, as the sport suspension architecture with European-inspired tuning and 17" summer performance tires help keep ST planted. Enjoy the growl from EcoBoost that's piped into the cabin through the sound symposer, or the boom of its 8-speaker Audio System from Sony.® Time to get this party started – ST style. No supplements, additives or nitrous required.

Hug corners. Pass pumps.

"Fiesta is securely on the fun-to-drive side of the ledger," says TheCarConnection.com. And Fiesta SE with SFE Package has a best-in-class EPA-estimated rating of 41 mpg hwy.¹ Assertive, nimble and highly responsive, Fiesta helps you explore your world in style. Electric power-assisted steering improves low-speed feel and highway response. AdvanceTrac[®] electronic stability control (3 modes on Fiesta ST) helps each wheel stay firmly planted. Under the hood, a 1.6L I-4 engine with twin independent variable camshaft timing (Ti-VCT) adds precision, contributing to fuel efficiency or power output as your input demands.

Attract more followers.

Drive by in a 2014 Fiesta and people will take notice. Outside and in, there's plenty new to "Like." A chrome-accented grille. Sleekly tailored headlamps. Chiseled hood. "Fiesta is one of the most attractive subcompacts on the market," says AutoGuide.com. In the back, a new spoiler on the rear hatch and sculpted taillamps signal change as well. Inside, surprising levels of technology make staying connected easy. With this magnitude of attraction, just watch your social network grow. Downtown. Uptown. Wherever Fiesta travels.

Enhance your connections.

It's easy with voice-activated Ford SYNC^{®1} with 911 Assist[®]. SYNC delivers hands-free calls, Bluetooth[®]-streaming music and more with simple voice commands. Once paired, it can download your contacts and play music from your phone, MP3, USB or iPod[®]. Just touch a button on the steering wheel and say things like "Call: Amy" or "Play playlist: Road Jams." SYNC AppLink^{™2} lets you control Pandora[®], iHeartAuto[™], MLB.com At Bat[®] and select other apps by voice too. Take your connections to the next level in Fiesta. SYNC. Say the word.

Layer for protection.

Good advice that still applies today. Underneath the aerodynamic shape of Fiesta, its first protective layer is a rigid safety cage. High-strength and ultra-high-strength boron steel work with SPACE (Side Protection And Cabin Enhancement) Architecture to help divert crash forces away from occupants. Next, 7 standard airbags include front-seat side airbags and side curtains. Beyond that, Ford SYNC^{®1} with 911 Assist[®] uses your phone to call 911 in the event of airbag deployment, and can even give the operator an urgent message for you.² Underpinning it all, AdvanceTrac[®] electronic stability control helps keep all 4 wheels firmly planted.³ No wonder Fiesta earned the highest possible rating from the IIHS 3 years in a row (2011-2013).⁴

¹Available feature. ²The vehicle's electrical system (including the battery), the wireless service provider's signal and a connected mobile phone must all be available and operating for 911 Assist to function properly. These systems may become damaged in a crash. The paired mobile phone must be connected to SYNC, and the 911 Assist feature enabled, in order for 911 to be dialed. When the feature is ON, 911 Assist uses your paired and connected mobile phone to assist occupants to contact emergency services by dialing 911 if your airbag deploys or, on certain vehicles, if the emergency fuel pump shut-off is activated. ³Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. ⁴Insurance Institute for Highway Safety testing. 2014 model not yet tested.
