# SUPER 4WD NATURAL.

**F**OR A SERIOUS EXPLORATION OF WORLDLY WILDS, THE CAPABLE 2012 JEEP® COMPASS EXPANDS YOUR VIEW. IT COMES WITH MODERN TOUCHES AND A TRAIL RATED® SOUL THAT'S YOURS FOR THE TAKING. AN ALL-WEATHER TRAVELER THAT FEARS NO MUD, ICE, OR SNOW, COMPASS FULLY RETAINS ITS AUTHENTIC JEEP BRAND ROOTS.

## FREEDOM DRIVE I

Active, full-time 4WD capability with LOCK mode, features Electronically Controlled Coupling (ECC), which constantly monitors wheel slippage and transfers torque to the axle that can use it most. In tough conditions, the system can be locked 50/50 front/rear for added low-speed capability and control. Available.

## FREEDOM DRIVE II®

Trail Rated, full-time 4WD with LOCK mode, Off-Road mode with Hill Descent Control (HDC) and Brake Traction Control. Torque is adjusted on-demand for added fuel efficiency. Its all-weather capability expertly handles more difficult off-road situations, as well as deeper snow, mud, and up to 19" of water. Available.

## 2.4L DOHC 16V ENGINE

This powerhouse zooms off to achieve an EPA estimated fuel economy of 27 hwy/21 city mpg while delivering 172 hp supported by 165 lb-ft of torque. The engine's dual Variable Valve Timing electronically controls both intake and exhaust valves, four valves per cylinder (16V total), helping to improve power and encourage an economic performance. Available.

## 2.0L DOHC 16V ENGINE

Efficient and capable of delivering up to an EPA estimated 29 hwy/23 city mpg, the 2.0L four-cylinder engine cranks out a healthy 158 hp and 141 lb-ft of torque — an impressive performance for an engine this size. It's matched to a 5-speed manual 2WD transaxle or the automatic Continuously Variable Transaxle (CVT2). Available.

## CVT2

The Continuously Variable Automatic Transaxle (CVT2) with AutoStick uses a 30-mm high-strength multilayer steel drive belt and two active V-pulleys to vary vehicle speed, resulting in a smooth and quiet ride. The AutoStick shifter puts optimal vehicle performance under your command. Available.

## ALL-WEATHER GROUP

When the weather gets tough, no one wants to get caught in the mud, snow, or rain. Add this Group, and you'll have the chops to safely get where you're going, plus the ability to help others in need. Includes tow hooks, engine block heater, all-season floor mats, daytime running headlamps, all-terrain tires, and 17-inch aluminum wheels. Available.

# GUARDIAN HERO.

SAFETY & SECURITY

**P**EACE OF MIND TAKES YOU FAR. HEAD OUT WITH CONFIDENCE, KNOWING THAT A ROBUST SET OF MORE THAN 30 AVAILABLE SAFETY AND SECURITY FEATURES ARE IN PLACE, KEEPING WATCH ON THE TRAIL AND ON THE ROAD. A JEEP® ENGINEERED SAFETY CAGE STRUCTURE CONTAINS A FRONT CRUMPLE ZONE SPECIFICALLY DESIGNED TO ABSORB ENERGY DURING A FRONTAL IMPACT. YOUR ALL-WEATHER HERO IS ALWAYS ON GUARD.

**TIRE PRESSURE MONITORING SYSTEMS.** Embedded sensors continuously monitor the pressure in the tires and will immediately notify the driver when levels drop below the minimum acceptable level.

**HEATED POWER EXTERIOR MIRRORS.** Melt snow and ice off your sideview mirrors as you warm up your interior. This available feature also helps to keep your mirrors icicle-free as you drive.

**ELECTRONIC STABILITY CONTROL (ESC)<sup>(1)</sup>** An advanced system designed to assist drivers in maintaining control of their vehicle at all times. It integrates a four-wheel antilock brake system (ABS) with hydraulic Brake Assist, all-speed traction control, and Electronic Roll Mitigation (ERM) to constantly monitor driver input against the vehicle's actual course. When needed, the system automatically helps provide braking to the appropriate wheels and reduces engine power when overly sharp steering and/or impending wheel lift is detected.

**ADVANCED MULTISTAGE FRONT AND SIDE-CURTAIN AIR BAGS.<sup>(2)</sup>** These air bags provide nearly instantaneous occupant protection by matching air bag output to crash severity.

**SUPPLEMENTAL SEAT-MOUNTED SIDE AIR BAGS.<sup>(3)</sup>** Each side air bag has its own sensor to autonomously trigger the air bag on the side where the impact occurs. Available.

**HALOGEN HEADLAMPS AND FOG LAMPS.** These bright sources of light improve down-road visibility at night or during inclement weather.

**HILL START ASSIST (HSA).** This system works to prevent Compass from rolling away when starting the vehicle on an up- or downhill gradient. It holds the vehicle stationary for two seconds after the driver's foot is removed from the brake pedal, allowing time to apply the throttle. Standard on manual transaxle models, and included with the Trail Rated® Freedom Drive II® Off-Road Group.

**FRONT-SEAT ACTIVE HEAD RESTRAINTS.<sup>(4)</sup>** In the event of a rear-end collision, the head restraints move forward and upward to decrease the space between the head restraint and occupant's head, thereby helping to reduce the chance of injury.

**SiriusXM TRAVEL LINK™.<sup>(5)</sup>** As packaged with the available Media Center 430N radio, you'll have access to real-time information on accidents, traffic flow, construction, road closures, and more. Alternative route guidance and mapping lets you easily avoid troubled areas to help you arrive safely and on time.
