

LX

14

**LX 570** 5.7-liter V8, six-speed automatic transmission, dual Variable Valve Timing with intelligence (VVT-i), full-time four-wheel drive (4WD).

BRUTE LUXURY.

DO EVERYTHING  
YOU CAN IMAGINE.

AND A FEW MORE THINGS THAT YOU CAN'T.  
THE UNPARALLELED 2014 LX.

The LX isn't just spacious. With three rows and room for eight passengers, it's also extremely versatile. The power-sliding second-row seat offers a 40/20/40-split seatback to fit a variety of items. And, with the press of a button, the 50/50-split third-row seats stow to the side in seconds.

The available 450-watt Mark Levinson® Reference Surround Sound Audio System<sup>1</sup> was tuned for more than 4,000 hours to optimize the acoustics in the LX. As a result, it features 19 speakers and 71-channel architecture that deliver multi-dimensional sound and musical clarity once reserved for six-figure home theater systems.

EXCEPTIONALLY CIVILIZED.

Even if your surroundings no longer are.

Personalized comfort and craftsmanship can be found throughout the cabin. The driver's power seat features heating and available ventilation, along with 14-way adjustability. The supple leather trim is crafted from the highest-quality full-grain stocks, including available semi-aniline leather. And the exclusive Mahogany wood accents are individually selected for consistent color and grain.

SURROUND YOURSELF WITH INNOVATION, LUXURY AND PERFORMANCE.

#### VISIBILITY

To provide enhanced visibility, the LX features a backup camera.<sup>3</sup> And to help you see around blind corners, such as when exiting a parking garage, there is an available Wide-view Front and Side Monitor system.<sup>4</sup> For added convenience, a second camera located underneath the passenger side-mirror<sup>5</sup> is particularly useful when navigating narrow passageways and tight parking spaces.

#### CONVENIENCE

The LX is as capable as it is convenient. Along with its power second- and third-row seating for easy cargo loading,<sup>6</sup> there's a power rear door with an accommodating clamshell design. The lower tailgate can be manually raised and lowered, aiding cargo access. And as an added touch, the available cool box is neatly integrated in the front console under the center armrest to keep your beverages nicely chilled.

#### ENFORM WITH APP SUITE

Available Lexus Enform<sup>®7</sup> and Safety Connect<sup>®8</sup> offer more than the convenience of live, 24-hour navigation assistance and the peace of mind of knowing emergency services can be requested at the press of a button. With the subscription-free App Suite,<sup>7</sup> making dinner reservations, ordering movie tickets and personalizing your Pandora<sup>®</sup> playlist has never been easier.

#### REAR-SEAT ENTERTAINMENT

The available dual-screen Rear-Seat Entertainment System (RSES)<sup>9</sup> allows the left and right rear-seat passengers to enjoy separate entertainment. With 7.0-inch LCD screens located behind the driver's and front passenger's headrests, the system features a pair of wireless headphones<sup>10</sup> and can be used as a DVD player, audio player or game console via audio and video input jacks.

#### CAPABILITY

With the simple press of a button, Crawl Control<sup>11</sup> is designed to maintain an optimal low and steady pace over challenging terrain, while Turn Assist can tighten your turning radius by adding brake force to the inside rear wheel. Other innovative features include Active Height Control, an Adaptive Variable Suspension and Multi-Terrain Select, which optimizes traction based on the selected terrain.

#### V8 POWER

The go-anywhere, do-anything LX combines the power of a 383-hp<sup>12</sup> V8 with the grace of a six-speed sequential-shift transmission, which helps provide optimal acceleration, efficiency and seamless shifting. Plus, the Dual Variable Valve Timing with intelligence system (VVT-i) improves towing power<sup>13,14</sup> and boosts performance at higher speeds.

#### CLIMATE CONTROL

With 28 vents throughout the cabin, the LX features a standard first-in-class four-zone climate-control system that allows you and your passengers to select individual temperature settings. And along with adjustable heated front seats and available heated second-row seats, the LX boasts an available heated steering wheel and even a windshield-wiper deicer.

#### PRE-COLLISION SYSTEM

To help you prepare for and, if possible, avoid potential frontal collisions, an available Pre-Collision System<sup>15</sup> is designed to watch the road ahead for obstacles and warn you of their presence with beeps and visible indications.

The available Wide-view Front Monitor<sup>16</sup> captures a broad view of the forward and peripheral surroundings, which then displays on the Navigation<sup>17</sup> screen.

403 lb-ft  
torque @ 3,600 rpm<sup>12</sup>

90% of maximum torque  
available @ 2,200 rpm

ART FORM.

**G.** Available Wide-view Front and Side Monitor system<sup>4</sup> **H.** Black leather interior with Mahogany trim **I.** Available Rear-Seat Entertainment System (RSES) **J.** Electroluminescent instrumentation with multi-information display **K.** Steering-wheel controls **L.** USB connectivity

**A.** Transfer case, Crawl Control,<sup>11</sup> vehicle height and suspension controls **B.** Parchment leather interior with Mahogany trim **C.** Power open/close rear door **D.** Subscription-free Lexus Enform App Suite<sup>7</sup> **E.** Versatile rear seating **F.** Three-row, eight-passenger seating

---

**FULL-TIME  
FOUR-WHEEL  
DRIVE** The full-time 4WD system on the LX features a TORSEN<sup>®19</sup> torque-sensing limited-slip center differential that helps to minimize tire spin in slippery conditions. And, for maximum traction in off-road situations, the transfer case can run in locked or unlocked modes, as well as in high or low range.

## KEY STANDARD FEATURES

Four-zone automatic climate control with smog sensor and automatic circulation mode // Lexus Memory System // Power tilt-and-slide moonroof // Power rear door // Leather-trimmed interior // Mahogany interior trim // 10-airbag system<sup>20</sup> // Navigation System<sup>17</sup> // Lexus Enform<sup>7</sup> one-year trial subscription // Lexus Enform App Suite<sup>7</sup> // Full-time four-wheel drive // Adaptive Variable Suspension (AVS) with Active Height Control (X-AHC) // Crawl Control<sup>11</sup> with Turn Assist // 14-way driver's seat (including dual-function lumbar and cushion extender) // Power-sliding, 60/40-split middle-row seat with 40/20/40-split seatback // Auto on/off High-Intensity Discharge (HID) headlamps with Dual-swivel Adaptive Front Lighting System (AFS)<sup>21</sup> // Wood- and leather-trimmed steering wheel and shift knob // Smart Stop technology<sup>22</sup> // Trailer Sway Control<sup>18</sup>

# “THE BIGGEST, MOST CAPABLE AND MOST OPULENT SPORT-UTILITY ON THE BLOCK.”

—EDMUNDS.COM, NOVEMBER 14, 2012

**WARRANTY** Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *LX Warranty and Services Guide* at your Lexus dealer for details. **DISCLOSURES** 1. Mark Levinson® is a registered trademark of Harman International Industries, Inc. 2. The LX 570 is designed to meet most off-road driving requirements. Abusive use may result in bodily harm or damage. Lexus encourages responsible operation to help protect you, your vehicle and the environment. Seatbelts should be worn at all times. Please do not allow passengers to ride in the cargo area. Tow hitch receivers/ball mount kits are not intended to provide crash protection. 3. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather may limit effectiveness and view may become cloudy. 4. The Wide-view Front and Side Monitor does not provide a comprehensive view of the front and side areas of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Cold weather will limit effectiveness and view may become cloudy. 5. The Wide-view Side Monitor system does not provide a comprehensive view of the front passenger-side area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Cold weather will limit effectiveness and view may become cloudy. 6. Cargo and load capacity limited by weight and distribution. 7. Always drive safely, obey traffic laws & focus on the road while driving. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data, you are responsible for all charges. Apps/services are subject to change. Apps identified by ™ or ® are trademarks or registered trademarks of their respective companies. For enrollment, cost and more details, see [lexus.com/enform](http://lexus.com/enform). 8. Contact with the response center may not be available in all areas. Service Agreements required. A variety of subscription terms available; charges will vary. See [lexus.com](http://lexus.com) for details. 9. A single-disc DVD player is standard. A separate DVD player or game system utilizing the center console's video/audio inputs is required in order to use the split-screen function of the dual-screen system. 10. Headphones are for passenger use only. Do not use while operating vehicle. 11. Crawl Control is designed for driving on difficult terrain at low speeds. It assists the driver by controlling acceleration and braking, allowing the driver to focus on steering. The LX 570 is designed to meet off-road driving requirements, but off-roading is inherently dangerous. Always wear seatbelts. 12. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. 13. Before towing, confirm your vehicle and trailer are compatible, hooked up properly and you have any necessary additional equipment. If gross trailer weight is above 5,000 lb (2,268 kg), it is necessary to use a weight-distributing hitch with sufficient capacity. Do not exceed any Weight Ratings and follow all instructions and cautions from your trailer-hitch manufacturer and vehicle *Owner's Manual*. The maximum amount you can tow depends on the total weight of any cargo, occupants and available equipment. 14. Please consult your Lexus dealer or *Owner's Manual* for towing and load specifications. 15. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. See *Owner's Manual* for further information. 16. The Wide-view Front Monitor does not provide a comprehensive view of the front area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Cold weather will limit effectiveness and view may become cloudy. 17. Availability and accuracy of the information provided by the Navigation System or any SiriusXM™ and/or HD Radio™ services mentioned (if installed) are dependent upon many factors. Use common sense when relying on information provided. Services not available in every city or roadway. Periodic Enform app updates do not include Navigation updates. Navigation updates are available at an additional cost from your local dealer. See *Navigation Owner's Manual* or contact SiriusXM for details. 18. Trailer Sway Control (TSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether TSC will be effective in preventing a loss of control. See *Owner's Manual* for details. 19. TORSEN® is a registered trademark of Zexel Torsen, Inc. 20. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See *Owner's Manual* for further information/warnings. 21. The Adaptive Front Lighting System helps improve vision at night. Situations such as dirty windshield, rapidly changing light conditions or hilly terrain will limit effectiveness, requiring the driver to manually turn off. See *Owner's Manual* for details. 22. Smart Stop Technology operates only in the event of certain simultaneous brake and accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. See *Owner's Manual* for further details. 23. Continuous average power, all channels driven, at less than 0.1% THD; 20–20,000 Hz. 24. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. See *Owner's Manual* for details. 25. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 26. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local *Yellow Pages* or by contacting [aloo.org](http://aloo.org). 27. 20-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending upon driving conditions. 28. Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. 29. 2014 EPA-estimated ratings. Actual mileage will vary.

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See [lexus.com](http://lexus.com) for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, and are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit [lexus.com](http://lexus.com). To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
