Service and support

It's an age-old question: Is there a perfect match out there, just for you? One that understands your moods and responds to your needs. An ideal playmate—always exciting, yet never demanding. In your quest for that elusive soulmate, look no further than the 2007 CLK-Class. There's the instant attraction of its stunning lines—now more breathtaking than ever—in your choice of well-toned, pillarless Coupes or free-spirited Cabriolets. Equally inviting is the embrace of four individually contoured seats in hand-fitted leather, surrounded by rich wood trim. You'll find enduring passion in the spirited performance of a 268-horsepower V-6 or the rumble of a powerful new 382-horsepower V-8—both featuring the industry's first 7-speed automatic transmission. For the most demanding, there's the ultimate thrill of a 475-horsepower AMG V-8 Cabriolet. And when you go beyond the looks and heart, the CLK provides the most important feature of all—a soul of innovation that could only come from the manufacturer of the very first automobile, Mercedes-Benz. Your search is over. But the adventure is just beginning.

A MAGNETIC PERSONALITY WITH EVEN MORE PULL.

Your heart beats faster. Your breath quickens. There's no denying the attraction, but who could blame you? The 2007 CLK 350 Coupe and Cabriolet take alluring design to a higher level with aggressive looks and equally impressive power, thanks to a 268-horsepower, 3.5-liter DOHC V-6. The pillarless elegance of the CLK 350 Coupe is a testament to passionate engineering, creating a strong roof structure while allowing expansive panoramic views. The CLK 350 Cabriolet can give you and three of your closest friends the sun, the stars and gentle breezes at the touch of a button. And while you take a long, lingering look at both the Coupe and Cabriolet, you have to wonder: Is it possible to be in love with only one?

a. CLK 350 Sport Appearance Package
Care to step it up? Maximize your CLK 350 experience with the optional Sport Appearance Package. Flaunting 17" 10-spoke wheels, perforated brake rotors and a sport-tuned suspension, this new package heightens the athletic ride and can be furnished with your choice of a Sport or Luxury interior.

b. Standard 17" alloy wheels
17" staggered-width 5-split-spoke alloy wheels are fitted with 225/45 ZR17 high-performance tires¹ up front to help sharpen steering response, and wider 245/40 ZR17 tires¹ at the rear to contribute an extra measure of grip when it's time to put down the power.

c. Fully automatic power top
Press a button on the Cabriolet's center console or its SmartKey remote, and in 17 seconds you're open for anything. With no manual latches to operate, changing your outlook is truly a one-touch affair. A sculpted cover completes the top-down look. With its insulated, triple-layer soft top and heated glass rear window, this is a true year-round convertible.

¹ Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.

ALWAYS PASSIONATE, NEVER PLATONIC.

Many new-car owners enjoy a period where everything is exciting and new. And yet far too soon the honeymoon is over. Not so with the CLK 550. Whether you choose the CLK 550 Coupe or Cabriolet, the aggressive look of AMG-design lower bodywork embracing 17" staggered-width AMG thin-spoke monoblock alloy wheels¹ will keep your heart racing. The feel of a 382-horsepower V-8 rocketing you to 60 mph in 5.1 seconds² through the quick shifts of the industry's first 7-speed automatic never loses its thrill. New steering-wheel mounted shift paddles add to the fun. With a chassis that eagerly responds to your wishes and 4-wheel disc brakes that feature cross-drilled front rotors, 4-piston front calipers and tremendous speed-devouring abilities, even the most familiar roads suddenly become more inviting. And along with its heart-pounding performance, the CLK 550 also remains remarkably refined and poised in any driving situation, making it the perfect long-term partner for those who love to drive.

a.
AMG-design front apron

The large front air dam with mesh intakes enhances aerodynamics and gives the powerful 5.5-liter V-8 and front cross-drilled brakes the air they crave.

b.
AMG-design rear spoiler

As the aerodynamic lines of the CLK 550 slice through the atmosphere, the color-keyed rear lip spoiler helps reduce rear-end lift for improved handling at highway speeds.

c.
Dual polished chrome AMG exhaust tips

Hinting at the spirited power beneath the hood, eye-catching dual polished chrome AMG exhaust tips bring the perfect finishing touch to the CLK 550's design.

¹ Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions. ² CLK550 Coupe. 5.2 seconds for CLK550 Cabriolet. Stated rates of acceleration are based upon manufacturer's track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.

ENJOY INTIMACY WITHOUT GIVING UP YOUR PERSONAL SPACE.

A little private time can be nice, especially when you're surrounded by the numerous luxuries of the CLK 350. From the supple leather of supportive 10-way power front seats to the reassuring touch of the leather-wrapped steering wheel and shift knob, it's an environment to savor. Enjoy the visual warmth of hand-polished Burl Walnut wood trim on the doors, dashboard and console. Become immersed in the depth of the optional harman/kardon® LOGIC7® digital surround-sound system,¹ with 12 speakers in the Coupe and 10 in the Cabriolet, made all the better by optional SIRIUS Satellite Radio. The attention to design, luxury and style place the CLK 350 models among the most personal of coupes and convertibles—with ample interior room to make sure they're never too personal.

BE A
HEARTTHROB
 AND STILL BE
TAKEN SERIOUSLY.

To be an object of desire while still commanding respect requires a rare blend of seductive traits and superior intelligence. Inside the CLK 550, you'll find clever, thoughtful touches like front seats that move up and forward for easy access to the rear seats. The hand-fitted leather upholstery is worth coveting—and it's complemented by hand-polished Black Ash wood trim and ivory-color instruments in a matte chrome surround, or optional Burl Walnut wood trim with chrome-ringed black gauges. The optional digital surround-sound system¹ will stir your soul, as will the incredibly responsive 7-speed automatic transmission with steering-wheel mounted gearshift paddles. Advanced digital climate control can help keep you cool while you challenge your favorite road. Whether you view it with cool calculation or in the heat of the moment, the CLK 550 is a seriously irresistible proposition.

a. 7-speed automatic transmission
 The 7-speed automatic transmission features a greater number of gears for quick acceleration and a smoother response. For an even more involving experience, tapping the gear lever to the left or right of Drive gives you the manual-style control of Touch Shift.

b. Gearshift paddles
 Enjoying the 7-speed automatic transmission is even more fun with shift paddles behind the steering-wheel spokes that let you control the Touch Shift feature without taking your hands off the wheel.

c. Digital climate control
 The CLK 550's digital dual-zone climate control system features left and right temperature and airflow controls, and a charcoal filter that automatically recirculates interior air when it senses a significant increase in smog.

A FORCE OF NATURE CREATED BY INSTANT CHEMISTRY.

The first time you see the electrifying CLK, it may strike you like a lightning bolt. With the CLK 63 AMG Cabriolet, the passionate engineers at AMG—the high-performance division of Mercedes-Benz—have created some thunder to go along. A handcrafted 6,208-cc V-8 pumps out 475 horsepower and 465 lb-ft of torque, to serve up 60 mph in a mere 4.5 seconds,¹ while AMG SPEEDSHIFT™ programming gives the robust 7-speed automatic transmission 35% faster gear changes—easily snapped off by Formula 1-style Manual-mode paddles on the

steering wheel. As responsive as it is refined, the CLK 63 AMG also features suspension and braking systems developed by AMG. The muscular lines of the CLK 63 AMG sit aggressively over 18" wheels carrying 225/40 ZR18 front and 255/35 ZR18 rear high-performance tires,² while contoured side sills and a functional rear lip spoiler show the wind the quick way around. To the enthusiast, a vehicle like the CLK 63 AMG Cabriolet is more than just appreciated, it's coveted for the rarity that it is—because lightning seldom strikes the same place twice.

a. AMG wheels, tires and brakes
Massive disc brakes with perforated front rotors and enlarged 6-piston front/4-piston rear AMG calipers give arresting braking performance. 18" staggered-width AMG 5-spoke alloy wheels are equally adept at stopping passersby in their tracks.

b. Low-backpressure exhaust
Announcing your presence is a deep 475-horsepower V-8 rumble speaking through a free-flowing dual-exhaust system that is respectfully subdued at cruising speeds. Two stainless-steel tips make sure you're seen as well as heard.

c. Extensive testing
AMG components are tested under brutal conditions, from our labs to the most demanding race circuits in the world. It's more than just an uncompromising way to build a performance car—it's the only way for the passionate engineers of AMG.

¹ Stated rates of acceleration are based upon manufacturer's track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.
² Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.

When you're piloting a car capable of storming to 60 mph in just 4.5 seconds,¹ you want to be nowhere else than at the core of comfort and control. The CLK 63 AMG Cabriolet puts it all at your fingertips—literally—starting with manual shift paddles behind the spokes of the leather-wrapped steering wheel. To make sure other parts of your body are equally well supported, the driver's AMG-design heated multicontour sport seat features pneumatic side bolsters, dual lumbar supports and thigh support. Rich Black leather bolsters and soft Nappa leather inserts in black mean luxury need never take a back seat. Sand-cast aluminum trim lends a cool, confident presence throughout the cabin, or, if your planetary preference is more Old World, rich Burl Walnut wood trim is optional.

A SMOOTH OPERATOR YOU CAN TRUST.

Creating a seamless experience between you, your CLK and the road, Mercedes-Benz takes an integrated approach to performance. This means that all elements—handling, acceleration and braking—are balanced to create a driving experience that exceeds expectations in each area. At the heart of CLK performance is a variety of powerplants: a smooth and responsive V-6 and two new generation V-8 engines: the 5.5-liter V-8 and the adrenaline-surging AMG 6.2-liter V-8. And for each engine, there is a transmission specifically designed to give you unmatched comfort and control, whether you're enjoying a spirited drive on your favorite twisty road or effortlessly gliding through your daily commute.

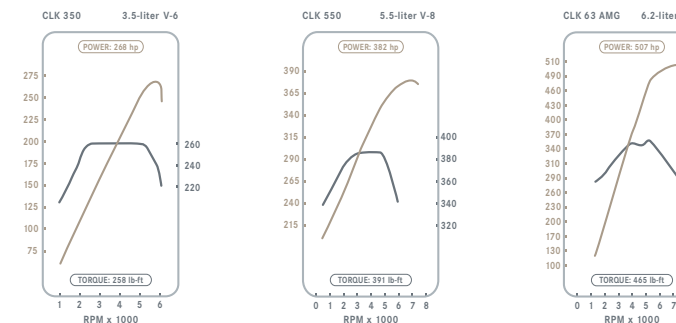

CLK 350 V-6 and CLK 550 V-8 engines

Giving you the responsive horses you'd expect from a maker of thoroughbreds, the 3.5-liter DOHC V-6 in the CLK 350 produces a vigorous 268 horsepower and 258 lb-ft of torque, and reaches 60 mph in as little as 6.4 seconds.¹ Innovative "turbulence flaps" optimize the flow of air into the engine at various rpm, for ample low-end torque that keeps on giving throughout the rpm range. The CLK 550 is motivated by a potent new generation 5.5-liter V-8 that puts out 382 horsepower and 391 lb-ft of torque to rocket you to 60 in as little as 5.1 seconds!¹

CLK 63 AMG V-8 engine

Each AMG engine is the masterpiece of an AMG technician, who assembles the engine from start to finish. Pistons, crankshaft and connecting rods are all reinforced for strength and matched by hand for ideal balance, making the new CLK 63 AMG's 475-horsepower V-8 a unique blend of modern technology and Old World craftsmanship.

7-speed automatic transmission

With the industry's first 7-speed automatic in the CLK 350, CLK 550 and CLK 63 AMG—with AMG SPEEDSHIFT™ programming that provides 35% quicker shifts—you've got advanced powertrain management. The CLK transmission also features our adaptive programming, which matches shift points to suit your driving demeanor. You can tap the gear lever to the left or right of Drive to enjoy the manual-style control of Touch Shift. Or hold the lever to the left for a second, and this perceptive partner will automatically choose the ideal passing gear.

¹ Coupe figures shown. 6.7 seconds for CLK 350 Cabriolet; 5.2 seconds for CLK 550 Cabriolet. Stated rates of acceleration are based upon manufacturer's track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.

THE GREATER THE
INSPIRATION,
 THE MORE EXQUISITE THE
MASTERPIECE.

Whether it's the elegance of the Coupe's pillarless design or the rakish lines of the Cabriolet, the CLK is truly art in motion. And to the artisans of *designo*, it's the perfect canvas on which to create an exquisite masterpiece of color, texture and design. Adorned with the signature *designo* metal badge, their work reveals only hand-selected and hand-fitted supple Nappa leather, distinctive wood trim, selected for its appearance and hand-finished to an incomparable luster, and a rich color palette to delight the eye and stir the soul. Once you've added a CLK *designo* edition¹ to your personal collection, no other piece of automotive art will ever look the same again.

designo

Graphite Edition

The *designo* Graphite Edition is a captivating study in contrasts for any CLK-Class. The drama begins with Graphite metallic paint—featuring a black soft top on the Cabriolets. High intrigue is created inside with Porcelain Nappa leather on the seats (which sport the distinctive *designo* metal badge), head restraints and door inserts, offered as a stunning counterpoint to the deep gloss of Black Piano Lacquer wood trim². Floor mats trimmed in leather and badged with the *designo* insignia provide a fitting epilogue. The Graphite Edition is proof that opposites can do more than attract—sometimes they can get along quite beautifully.

Silver Edition

A worthy addition to any portfolio, this very special CLK 350 or CLK 550 glimmers in *designo* Silver metallic paint, elegantly offset on Cabriolet versions by a black soft top. Equally rewarding is the interior, featuring the visual appeal of supple hand-fitted *designo* Stone Nappa leather on the seats (badged with the *designo* metal insignia), head restraints and door trim inserts. Further delighting the eye, rich *designo* Brown Poplar wood trim has been hand-finished for exquisite beauty and placed lovingly about the cabin. The finishing touch: plush floor mats trimmed in leather and proudly displaying the telltale *designo* metal badge (not available on CLK 63 AMG).

NO ONE KNOWS YOU BETTER THAN YOU.

Every CLK-Class is luxuriously equipped with numerous comfort and convenience items, to make any drive a special occasion. And with these innovative options, you can enhance the experience by creating your own vision of the perfect CLK. There's lighting that helps you see into corners. The ability to enter your vehicle and drive off without touching a key. And an array of communication, entertainment, information and security options and services that make your in-car experience satisfying in ways you might never have imagined. And while you'd expect features like these on a car of the future, they're available on your CLK-Class today.

a. COMAND with DVD-based Navigation System¹
The optional COMAND system integrates the radio, CD player, GPS satellite Navigation System and controls for the optional phone and 6-disc CD changer into a single in-dash unit that you can access from the standard steering-wheel controls. A large color-LCD screen provides clear displays and crisp map readouts. And with the DVD-based Navigation System, a single disc holds the maps of the contiguous U.S., Canada and Oahu, Hawaii. To keep your navigation maps and Points Of Interest as up-to-date as possible, ask your dealer about our NavUpdate discs, available to help keep you on track with the most current data.

b. Heated or Active Ventilated front seats
Heated front seats, optional on the CLK 350 and CLK 550 models and standard on the CLK 63 AMG, provide three levels of soothing warmth. Active Ventilated front seats, part of the Premium 3 Package on any CLK, also feature internal fans that circulate air through perforations in the upholstery.

c. Multicontour driver's seat
Standard on the CLK 63 AMG and part of the Premium 3 Package on the other models, this seat offers pneumatically adjustable side bolsters, thigh support and dual lumbar supports, to provide an even greater degree of personalized support.

g. Keyless Go
Optional on any CLK-Class model, this enhancement of the SmartKey system lets you lock or unlock your car by touching the door handle—without removing the key from your pocket or purse. Start-up is equally easy: Put your foot on the brake, tap a button atop the gearshift and you're ready to take off.

h. CLK350 Sport Appearance Package
For that extra performance edge, there's the optional CLK Sport Appearance Package. It includes perforated brake rotors, 17" 10-spoke wheels and lowered, sport-tuned suspension, and can be combined with either the Sport or Luxury interior.

i. Electronic Trunk Closer
This convenient option allows you to fully open and close the trunk via a pushbutton on the driver's interior door panel. You can also close the lid from an additional button on the underside of the open trunk lid, or open it with the SmartKey remote.

j. iPod® Integration Kit⁴
This accessory adapter kit integrates your Apple iPod (sold separately) with the audio system, providing program information in the multifunction display and allowing control via the multifunction steering wheel.

k. Rubber-studded stainless-steel pedals
The accelerator, brake and parking brake pedals all feature the cool ambience of metal trim dotted with rubber studs for a look that's gripping in more ways than one.

m. 6-disc CD changer (not shown)
Available with either the standard radio or optional COMAND system is our optional 6-disc CD changer. It's glovebox-mounted, within easy reach but concealed from sight. It can play MP3-encoded CDs, and it seamlessly integrates with the CLK's audio system—via an innovative fiber-optic network—and multifunction steering wheel.

l. Hands-Free Communication System⁵ (not shown)
Retail handsets can be connected to the Multi-Handset Interface⁶ (MHI) Hands-Free Communication System in one of two easy ways: a range of MHI cradles or a new MHI Bluetooth[®] interface⁷ module. All devices click in place on the MHI contact plate in the center console of vehicles equipped with MHI. Cradles provide the best performance for users who talk on the phone often, require optimum reception, have big address books and need to review text messages in the car. In contrast, the Bluetooth interface module is ideal for light phone users who don't want access to address book and received call lists in the car. It services their needs via a convenient wireless connection between the handset and MHI system. No need to dock the phone in the car; just leave it in your pocket and enjoy hands-free conversations over the sound system. Best of all, now there's a wide array of Mercedes-Benz-approved retail handsets compatible with the MHI. Sold separately. Please see your dealer for details.

d. Wood-/leather-trimmed steering wheel²
With this wheel's polished wood and supple leather, you'll appreciate the added luxury every time you drive. It's available to match the interior wood trim in any CLK 350 or CLK 550 and is included with *designo* editions.

e. Active Bi-Xenon headlamps with corner-illuminating foglamps
An example of truly visionary thinking, active headlamps monitor your steering angle and driving speed, then shift their beams to either side to better follow the curvature of the road ahead. As a result, you get a better view into corners by increasing usable illumination by up to 90% over conventional fixed headlamps. Enhancing their abilities, corner-illuminating front foglamps can illuminate a curving roadway by monitoring steering-wheel angle and driving speed (up to 25 mph), or can be activated by your turn signal (at speeds up to 25 mph) to brighten your way into a dark driveway or alley.

f. Lowered sport suspension
Add a more aggressive stance and even sharper handling response to your CLK 350³ or CLK 550. The sport-tuned suspension includes firmer coil springs and shock absorbers, along with lowered ride height.

n. SIRIUS Satellite Radio⁸
It's like having a music library of over two million songs in your Mercedes-Benz. Optional SIRIUS Satellite Radio integrates with the standard audio system and controls. Your SIRIUS subscription brings over 125 all-digital coast-to-coast channels, with over 65 commercial-free channels of music, from rock to country and classical to jazz, plus over 60 non-musical channels that cover news, sports—including live games from the NFL[®], NHL[®] and NBA—and such well-known names as Discovery Channel, E! and Radio Disney.

⁵ Always plug the phone into the cradle for use inside the vehicle or use the Bluetooth interface. Otherwise operating a non-approved phone or radio transmitter with its own attached or built-in antenna while the engine is running can interfere with the vehicle's electronic systems. For safety reasons, the driver should not use a cellular phone while the vehicle is in motion. We encourage the driver to stop the vehicle in a safe location before answering or placing a call. See your Mercedes-Benz dealer or visit www.Wireless4MB.com for current handset availability. Not all approved phones support all system features. See dealer for details. ⁶ Dealer-installed. Requires prewiring for Hands-Free Communication System, included in Premium 1 Package. Interface and phones sold separately. See dealer for a list of approved compatible phones. ⁷ BLUETOOTH INTERFACE DOES NOT PROVIDE PHONE CHARGING OR EXTERNAL ANTENNA. PHONE BOOK DOWNLOAD FEATURE IS DEPENDENT ON SELECTED HANDSET. VISIT WWW.WIRELESS4MB.COM FOR DETAILS. ⁸ Programming subject to change. Not available in Alaska, Hawaii or Puerto Rico. While the SIRIUS network of satellite and terrestrial antennae provides nearly seamless service throughout the contiguous U.S., SIRIUS service may be unavailable or interrupted for a variety of reasons, including environmental or topographic conditions; in certain locations such as tunnels, parking garages or within or next to large buildings; or near other technologies that can interfere with the SIRIUS signal. SIRIUS, the dog logo and SIRIUS stream names and logos are trademarks of SIRIUS Satellite Radio. NFL[®] is a registered trademark of the National Football League and its affiliates. NHL[®] is a registered trademark of the National Hockey League. The National Basketball Association name is the property of NBA Properties, Inc.

Please see your dealer for a copy of the CLK-Class Accessories Brochure, featuring the full assortment of genuine Mercedes-Benz accessories for the CLK. ¹ While the Navigation System provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or verbal displays once the vehicle has been stopped in a safe place. Maps do not cover all areas nor all routes within an area. ² Deletes steering-wheel shift paddles on CLK 550 models. ³ Sport suspension available for CLK 350 in Sport Appearance Package. ⁴ iPod is a registered trademark of Apple Computer, Inc. AMG SPEEDSHIFT programming provides up to 35% faster gear changes, automatically downshifts during braking, prevents unwanted upshifting while cornering and features torque converter lockup in all forward gears. Manual mode allows direct-access shifting through forward gears via paddles on back of upper steering-wheel spokes (left paddle downshifts, right paddle upshifts) or via Touch Shift feature of shift lever, and will automatically intervene only to select 1st gear when the vehicle stops. In Standard and Comfort modes, the steering-wheel paddles operate the Touch Shift feature.	Not available. Standard.	Standard.

TRACTION/STABILITY	
Electronic Stability Program (ESP®)	ESP compares the driver’s intended course, via steering and braking inputs, to the vehicle’s response, via lateral acceleration, rotation (yaw) and individual wheel speeds. ESP then brakes individual front or rear wheels and/or reduces excess engine power as needed to help correct understeer (plowing) or oversteer (fishtailing). ESP also integrates all-speed traction control, which senses drive-wheel slip under acceleration and individually brakes the slipping wheel or wheels, and/or reduces excess engine power, until control is regained. ¹

Brake Assist (BAS)	BAS senses emergency braking via the speed at which the driver presses the brake pedal and immediately applies maximum available power boost, potentially reducing the overall stopping distance by eliminating the delay caused by a common human tendency not to brake hard enough, soon enough. Letting up on the brake pedal releases Brake Assist. ⁶

¹ No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Best performance in snow is obtained with winter tires. ² Stated rates of acceleration are based upon manufacturer’s track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load. ³ 2006 EPA estimated fuel economy. Compare the estimated mpg to the estimated mpg of other vehicles. You may get different mileage depending on how fast you drive, weather conditions and trip length. 2007 figures unavailable at time of publication. See your dealer. ⁴ Your actual highway mileage will probably be less than the highway estimate. ⁵ Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions. ⁶ Braking effectiveness also depends on proper brake system maintenance, and tire and road conditions. ⁷ Dimensions shown are for models with standard equipment and sunroof.

Tele Aid¹

Tele Aid puts a variety of services at system subscribers' fingertips with three simple buttons: the SOS button, the Wrench button and the *i*-button.

- SOS button: In case of an emergency, push the SOS button for a Tele Aid Response Specialist who can notify police, paramedics or other emergency personnel of your vehicle's location. SOS is automatically triggered in the event of an air-bag or seat-belt Emergency Tensioning Device (ETD) deployment.
- Wrench button: If you need Mercedes-Benz Roadside Assistance, push the Wrench button. Service personnel will help you identify the trouble and dispatch Roadside Assistance if necessary.
- *i*-button: Push the *i*-button to contact the Customer Assistance Center or to be connected to your Mercedes-Benz dealer. You can also reach the Concierge Service, receive Route Assistance and access Tele Aid's Traffic Information service.^{2,3}

Tele Aid Security & Care service

You're already driving a very safe car. Now the Tele Aid Security & Care service enhances your sense of security by providing emergency notification services, connection to Roadside Assistance, Remote Door Unlock, Stolen Vehicle Recovery, i-Operator's Manual, Anti-Theft Client Alarm Notification and more. Keep your annual subscription up-to-date and enjoy the peace of mind that comes from knowing you and your family have an added measure of security and care. With an active Tele Aid subscription, you may be eligible for a discount from your insurance provider.

Tele Aid Luxury & Convenience Package²

The Tele Aid Luxury & Convenience Package builds on the services of the Tele Aid Security & Care service and adds access to premium services that enhance your in-vehicle experience every time you get into your Mercedes-Benz. Upgrading to the Tele Aid Luxury & Convenience Package is as easy as pressing the *i*-button and speaking with a Tele Aid Response Specialist.

- Personal Concierge acts as your personal assistant on the road. The Tele Aid Concierge Service offers you the gift of time and convenience by fulfilling your requests for nearly "anything, anytime, anywhere" at the touch of a button. You can also use the Online Concierge, which allows you to access your Personal Concierge via your computer or even your PDA from the convenience of your home, office or anywhere Internet access is available.
- Traffic Information provides up-to-the-minute details on traffic conditions along your route.³
- Route Assistance connects you to a trained specialist who has the resources to locate and help you get to your destination.³

24-hour Roadside Assistance⁴

The first of its kind, the Mercedes-Benz Roadside Assistance Program is still the only one that remains in effect for the life of the vehicle. Our Roadside Assistance technicians draw on years of experience and training to get you back on the road as quickly as possible.⁴

Mercedes-Benz Warranties

Our New Vehicle Limited Warranty runs for 48 months or 50,000 miles, whichever comes first. And anytime during the new vehicle warranty coverage, you can also purchase a Mercedes-Benz Extended Limited Warranty that will provide additional protection when the New Vehicle Limited Warranty expires.⁵

The Mercedes-Benz Maintenance System

We've made caring for your vehicle easier than ever. With the Mercedes-Benz Maintenance System, the service intervals are fixed and predictable — every 13,000 miles or one year (10,000 miles or one year for AMG models).⁶ Your vehicle will even remind you, about one month before service is due, via an automatic display on the dashboard that also tells you which type of maintenance service is due.

The no-charge Service Welcome

Getting proper care for your Mercedes-Benz is easiest when you go to the people who know your vehicle — and you — best: your Mercedes-Benz Center's Service Department. To help you get acquainted, just bring your vehicle in for a no-charge first visit between 1,000 and 3,000 miles, where your dealer will perform a diagnostic check as well as address any questions you may have. It's part of our no-charge Service Welcome, which also provides your first tire rotation at no charge anytime before 6,500 miles.⁷

CLK 550 Cabriolet shown in optional Diamond Silver metallic paint and Black/Ash leather with optional wood/leather steering wheel and Lighting and Premium 2 Packages.

24-hour Customer Service

Our Customer Assistance Center is your one-stop source for answers. Whether you need to know how to use your audio system, find the nearest Mercedes-Benz dealer, get pricing or learn about personal and automotive accessories, just call 1-800-FOR-MERCEDES or press the Tele Aid *i*-button in your vehicle.⁸

Sign and Drive service

Our legendary Roadside Assistance Service includes bringing you some fuel if you've run out, replacing a flat tire with your spare or jump-starting your car if the battery dies. All at no charge, and all for as long as you're driving a Mercedes-Benz — even somebody else's.⁹ Help is as close as your vehicle's Wrench button⁸ or just a phone call away at 1-800-FOR-MERCEDES.

Trip Interruption benefits

In the unlikely event that a breakdown covered by your MBUSA New Vehicle Limited Warranty occurs more than 100 miles from your home, leaves your Mercedes-Benz inoperable or unsafe to drive and requires overnight repairs at a Mercedes-Benz Center, you'll be reimbursed up to \$300 per day for any documented expenses — for up to three days — for meals, lodging and substitute transportation.

Alternate Transportation Program

When you bring your vehicle into a Mercedes-Benz Center for servicing during the warranty period, ask about your dealer's Alternate Transportation Program — so you can maintain your busy schedule while your dealer maintains your vehicle.¹⁰

Mercedes-Benz Financial

Mercedes-Benz Financial offers an impressive array of flexible and convenient financing options. To determine whether purchasing or leasing is right for you and to estimate the monthly payment of your next Mercedes-Benz, visit MercedesBenzFinancial.com.

European Delivery Program

It's more than just a new car, it's a driving adventure. With our factory delivery program, you can enjoy a honeymoon with your new Mercedes-Benz as you savor the delight of driving it in the land where it was built — while you enjoy a 7% savings on many models.¹¹ Enjoy it as a brief trip or as the starting point of your own self-planned European adventure. You can also take advantage of the optional Rally Package, which takes you through the Black Forest and the Alps, then on to Munich, staying at luxurious, historic hotels all along the way.
