

2012 NV Passenger Van

**Introducing the Nissan NV Passenger Van.** Designed to transport your expectations as well as your passengers, NV Passenger Van sets the standard with a class-leading 324 seating configurations.<sup>1</sup> And getting to them is easy, with a sliding side door and a low step-in height. It's a real upgrade for those along for the ride, featuring comfortable seating with integrated headrests and seat belts and the confidence of standard roof-mounted side-impact supplemental air bags for every row.<sup>2</sup> Innovative heating and cooling keeps everyone comfortable, too. The out-front engine design provides improved driver comfort, easier engine access for servicing, and the durability of the largest frame and biggest brakes in its class.<sup>1</sup> It all adds up to comfortable drivers, satisfied passengers and a profitable bottom line. That's innovation that works. Innovation for all.

<sup>1</sup>Ward's Light Vehicle Market Segmentation. MY12 NV vs. 2011 Large Van Class. <sup>2</sup>Air bags are only a supplemental restraint system. Always wear your seat belt. Do not use rear-facing child restraints in this vehicle. All children 12 and under should be properly secured in child restraints, booster seats, or seat belts, according to their size. Air bags will only inflate in certain accidents. See your Owner's Manual for details.

INDIVIDUALLY DESIGNED SEATS AND INTEGRATED SEAT BELTS

6 INDIVIDUAL MAP LIGHTS

THIRD-ROW POWER PORT

INCREASED DRIVER VISIBILITY

# BUSINESS CLASS.

NV Passenger Van takes rider comfort to the next level. Getting to your seat is easy, with large aisles and plenty of space between rows. Seats feature an individual backrest design, independent headrests and integrated shoulder belts for comfort and security. Slide-out under-seat cup holders, overhead A/C vents and available reading lights and power outlets provide comfort and convenience. There are even two floor heater vents for every row, with dual heater units in the front and rear so no one's left out in the cold. There's no need to fight over who gets to sit where – every seat is the best one in the house.

FLOOR VENTS

UNDER-SEAT CUP HOLDERS

SMART STORAGE WITH MULTIPLE POWER PORTS

## A LEG UP ON THE COMPETITION.

With a choice of fore or aft positions in the 2nd- and 3rd-row seats, NV Passenger Van can be configured to give extra leg room, a real plus for taller or larger passengers.

## 6 INDIVIDUAL REAR SEATS

### IT PAYS TO BE FLEXIBLE.

With a class-leading total of six independent rear seats,<sup>1</sup> you have unmatched flexibility whether it's maximizing cargo, passengers, or just giving everyone a little more room to get in and move around. The 4th-row seats even feature wheels for easier removal.

## UP TO 324 SEATING CONFIGURATIONS

MAXIMUM PASSENGERS

EASY ENTRY AND EXIT

ROOM FOR 8 AND CARGO

MAXIMUM CARGO

## 12 REAR AIR VENTS 14 FAN SPEEDS LIMITLESS COMFORT

A comfortable passenger is a happy passenger, so extensive engineering went into making NV Passenger Van comfortable for all. Along with standard front and rear HVAC units, you'll find each passenger row has two adjustable overhead air conditioning vents, and dual floor-mounted heater vents – most competitors heat only one side of the cabin, meaning some passengers will be too hot while others have a chilly ride. And while competitor vans offer only 4 fan speeds, NV Passenger Van features 14 speeds for increased rear climate control.

### REAR POWER OUTLETS

An available 12-volt power outlet in the third row is ideal for charging a cell phone or tablet, while an available dedicated 120-volt outlet behind the 4th row in the cargo area can charge a power tool battery pack or a laptop.

### CONVENIENT CUP HOLDERS

No detail was overlooked in NV Passenger Van. Each row features two under-seat slide-out cup holders, designed to hold a variety of containers and strong enough to withstand years of abuse.

### REAR CLIMATE CONTROLS

Located above the driver and front seat passenger, the design is simple but effective, with 14 fan speeds to ensure cabin comfort, and two oversize knobs that are easily adjusted, even when wearing gloves.

**CONNECTIVE TECHNOLOGY** Available advanced technology keeps you in touch and on the move. Nissan navigation with live traffic updates helps you find the best route and avoid traffic jams, while Bluetooth® Hands-free Phone System connectivity lets you make and receive calls while keeping your hands on the wheel.<sup>1,2,3</sup> An available Front and Rear Sonar System plus a RearView Monitor help negotiate tight parking spaces, while XM® Satellite Radio and an iPod®-friendly USB input make any trip more enjoyable for you and your passengers.<sup>2,4,5,6</sup>

# COMFORT, CONTROL AND CONVENIENCE.

The job title may say driver, but you can also add part-time skycap, cashier, entertainment director and company representative to the list. NV Passenger Van makes sure you excel at all of them, providing outstanding room and superior visibility for easier maneuvering. There's dedicated storage for everything from clipboards to business cards, and advanced technology to help keep you on time, and your passengers comfortable and entertained. Job well done.

<sup>1</sup>Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. <sup>2</sup>XM Satellite Radio and XM NavTraffic require subscriptions sold separately after trial period. Subscriptions governed by XM Customer Agreement at xmradio.com. Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. ©2011 SIRIUS XM Radio Inc. SIRIUS, XM and all related marks and logos are trademarks of SIRIUS XM Radio Inc. and its subsidiaries. <sup>3</sup>Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone Owner's Manual for details. Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under license. <sup>4</sup>The Front and Rear Sonar System is a convenience, but not a substitute for proper parking procedures and/or backing procedures. Always check that it is safe to do so before moving forward or backing up. May not detect every object in front of or behind you. <sup>5</sup>Parking aid/convenience feature. Cannot completely eliminate blind spots or warn of moving objects. May not detect every object. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. <sup>6</sup>Driving is serious business and requires your full attention. Do not operate any devices connected to the USB or auxiliary audio input jack while driving. <sup>7</sup>iPod is a registered trademark of Apple, Inc. All rights reserved. iPod not included.

**FLEXIBLE CENTER CONSOLE**  
NV Passenger Van's available center console is a master multi-tasker – large enough to hold hanging files or a laptop computer, with a top that slides forward to create a convenient work-desk. 12-V and 120-V outlets help ensure your business devices are always charged and ready to go.

**SEATS THAT GO THE DISTANCE**  
By minimizing engine intrusion into the cabin, NV Passenger Van's truck-like interior pays huge dividends in stretch-out room, especially leg and foot room (check out the wide foot wells). The wide front seats feature a supportive anti-fatigue design, so you'll find NV Passenger Van is a comfortable place to spend long hours on the road. And to keep your cabin looking new, the cloth seats feature durable materials, including water-repellent seat cushions and backs, and a seat wear patch on the upper and lower outer bolsters made of heavy-duty vinyl.

# BUILT FOR THE LONG HAUL.

NV Passenger Van has been engineered from the bottom up to give you the kind of reliability and durability you need to ensure a solid bottom line for your business. It's built on the largest boxed frame in its class for a long service life.<sup>1</sup> The biggest brakes in its class provide confident stopping power,<sup>1</sup> while standard VDC helps keep you on your steered path.<sup>2</sup> Whether you choose between a fuel-efficient V6 or powerhouse V8 engine, you ride with state-of-the-art technology. With up to 9,500 lb towing capacity, you can bring what you need, when you need it. And since both engines run so efficiently, you'll never have to worry about logging idling time again.

## VEHICLE DYNAMIC CONTROL

NV Passenger Van's VDC system helps you stay on your steered path by reducing engine speed and /or applying appropriate brake pressure to specific wheels.<sup>2</sup>

**POWERFUL CHOICES** NV Passenger Van's 24-valve, 4.0-L V6 features an advanced Continuously Variable Valve Timing Control System that delivers seamless power with optimum fuel efficiency. Step up to the 5.6-L V8 and you'll find an aluminum block with a forged crankshaft and cast-iron cylinder liners for maximum strength. Both engines feature specially coated piston skirts and microfinishing of key components to help reduce friction for smooth response and less wear and tear.

## SUSPENSION AND RIDE

Based on the heavy-duty components of NV Cargo Van, Nissan engineers specially tuned the suspension of NV Passenger Van for rider comfort.

<sup>1</sup>Ward's Light Vehicle Market Segmentation. MY12 NV vs. 2011 Large Van Class. <sup>2</sup>VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely. Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle.

# THE SAFETY OF TOMORROW, IN YOUR VAN TODAY.

**FRONT-IMPACT COMPATIBILITY** Setting NV Passenger Van's bumper at passenger car height helps improve compatibility in a crash environment and helps offer better protection for occupants in passenger cars.

# 8 STANDARD AIR BAGS

**THE MOST STANDARD AIR BAGS IN ITS CLASS.<sup>1,2</sup>** NV Passenger Van is the only van in its class with standard inflatable curtain air bags for all 4 rows of seats for outboard occupant head protection in the event of a rollover. No other competitor offers 4 rows of air bag coverage – even as an option.

**BRAKE OVERRIDE TECHNOLOGY** Like every Nissan since 2005, NV Passenger Van comes standard with Brake Override Technology. It's designed to help slow down your vehicle and bring it to a safe stop in an emergency by overriding accelerator input and reducing engine power when the accelerator and brake pedals are applied simultaneously.

**LARGEST BRAKES IN CLASS<sup>1</sup>** Massive 14" 4-wheel stopping power. Advanced technology, including an Anti-lock Braking System (ABS) and Electronic Brake force Distribution (EBD), are there to help protect you.

**FRONT, REAR AND SIDE IMPACT ZONES** The NV Passenger Van comes with a front energy management zone designed to help absorb the energy generated upon impact. Side rigid zones are designed to help maintain vehicle integrity with minimal deformation to protect occupants. The heavy-gauge steel construction of the occupant compartment offers added protection during a side-impact incident. The rear energy management zone helps absorb energy from impact in the rear section of the frame, protecting both occupants and fuel tank.

<sup>1</sup>Ward's Light Vehicle Market Segmentation: MY12 NV vs. 2011 Large Van Class. <sup>2</sup>Air bags are only a supplemental restraint system. Always wear your seat belt. Do not use rear-facing child restraints in this vehicle. All children 12 and under should be properly secured in child restraints, booster seats, or seat belts, according to their size. Air bags will only inflate in certain accidents. See your Owner's Manual for details.

## TRIM BUILD

### NV3500® HD S includes:

- 4.0-liter DOHC V6 engine
- 5-speed automatic transmission
- 14" Brakes front/rear
- 17" Silver-painted wheels with 245/70R17 tires
- Black exterior trim
- Water-repellent cloth seats with wear patches
- 12-passenger seating capacity
- 324 Seating configurations
- 10 Exterior roof rack mounting points
- 243° Maximum opening range for rear cargo doors
- 8 Cup holders and 3 bottle holders
- 12 Rear passenger heating and cooling vents
- Rear passenger area map light
- Side and rear window privacy glass
- AM/FM/CD audio system with 4 speakers
- 3 Assist grips
- Pre-wiring for electrical and telematics upfitting
- 8 Standard air bags
- Vehicle Dynamic Control (VDC)
- Optional 5.6-liter DOHC V8 engine

### NV3500® HD SV includes:

- 3500 HD S contents
- 17" Chrome-clad wheels
- Rear Sonar System
- Chrome exterior trim
- Power door locks and front windows
- Steering-wheel-mounted audio and cruise control
- Multi-functional lockable center console
- Driver's under-seat storage tray
- Driver's seat storage pocket
- 6 Additional rear passenger area map lights
- 2 Additional cup holders (10 total)
- 2 Additional 12-volt DC power outlets
- Two 120-volt AC power outlets rated at 400 watts
- Foot well lights and carpeted floor
- 8-way power driver's seat with manual lumbar
- MP3/WMA/CD playback capability
- 2 Additional speakers
- Vehicle Security System with remote keyless entry
- Nissan Vehicle Immobilizer System
- Optional 5.6-liter DOHC V8 engine

### NV3500® HD SL includes:

- 3500 HD SV contents
- 5.6-liter DOHC V8 engine
- Final gear ratio of 3.54:1
- Fog lights
- Front Sonar System
- Leather-appointed seats
- Heated front seats
- Leather-wrapped steering wheel
- Bluetooth® Hands-free Phone System
- Auto-dimming rearview mirror with compass
- Dual-zone air conditioning

HIGH ROOF  
NV2500 HD/NV3500 HD

**NISSAN LINEUP** – Wouldn't it be cool if cars didn't need keys? If you could talk to them with a smartphone? Or you made a legend available to everyone, or turbocharged a sport crossover? If a commercial vehicle was designed for the way you really work? If old water bottles became new seats? How about never buying another gallon of gas? At Nissan, it's more than cool, it's happening now. And if you find today's lineup of sedans, coupes, sports cars, crossovers, van and trucks exciting, just wait until you see what happens next. Nissan. Innovation for today. Innovation for tomorrow. Innovation for all.
