

SATURN

AURA

2007

A silver sedan is driving on a city street, viewed from a low angle. The street is lined with tall buildings, and the scene is captured in a dynamic, slightly blurred style, suggesting motion. The lighting is warm, likely from the setting or rising sun, casting long shadows and highlighting the textures of the buildings and the car's surface. The car is positioned in the lower right quadrant of the frame, moving towards the viewer.

LIKE ALWAYS.

There is a way to do things differently. To replace hassle and haggle with learn and listen. To make the process of buying a car less of a process. To pour everything we have into everything we do.

LIKE NEVER BEFORE.

There is a way to get what's beyond your expectations. To feel a boost in horsepower. To make cabins impressively refined and unbelievably quiet. There is a way to marry beauty with affordability. And there is a way to get all of this in one car. The 2007 AURA sedan.

THE KEY ENTERS THE IGNITION,
THE SPARK ENTERS THE CYLINDER,
THE CAR ENTERS THE

SOUL.

To suggest the entirely new Saturn AURA will have an effect on you would be an understatement. This car is everything a sedan should be. An arresting exterior. A well-appointed and refined interior. And an available 252 horses of abundant power in a car thoroughly designed to exploit it.

1 2

METICULOUS
ATTENTION TO
DETAIL. TENACIOUS
REFUSAL TO
COMPROMISE.

This is not basic transportation. Everything about the AURA, from its technologically advanced powertrains to its sophisticated interior, has been designed for the drive. 1) The soothing amber-lighted instrument panel gives you a reason to look forward to the evening commute. 2) Distinctive headlamps are precision fit to flaunt the highest aesthetic standards. 3) Chrome accents and taut exterior lines make looking at this car as remarkable as driving it. 4) Race-car-inspired TAPshift® paddle shifters give you the option to experience the thrill of manual driving.

3 4

EXTENSIVELY DESIGNED FOR THE DRIVE.
CONVENIENTLY EAGER FOR THE ESCAPE.

1 2

WITH ALL DUE RESPECT TO POINTS A AND B, THIS CAR IS ENGINEERED FOR EVERYTHING IN BETWEEN.

The AURA will certainly get you where you need to go. But it'll also give you your recommended daily allowance of euphoria. 1) It's not just the power of the available 252-hp V-6 engine with Variable Valve Timing, it's how the entire car is designed to maximize it. 2) The AURA's available 6-speed transmission, not commonly found in its class,* allows you to get the most out of every gear. 3) European-inspired driving dynamics are evident in the AURA's sport-tuned steering. Quickly transfer driver input and enhance your driving experience with available 18-inch Goodyear tires.

3

*Based on 2006 GM mid-size car segment. Excludes other GM vehicles.

THERE'S NO USE
IN GETTING OUT.
YOU'RE ONLY
GOING TO WANT TO
GET BACK IN.

Good luck withstanding the gravitational pull of the driver's seat. Rational luxury abounds within the AURA's cabin. From the seamless, flowing design to the impressively sound-dampened cabin (thanks to over 55 innovative noise-reduction features) to the premium tactile surface materials, everything makes you want to stay seated long after you've turned the engine off. 1) Extremely tight gap tolerances and touch-friendly surfaces are found throughout. 2) An impressively large, available panoramic roof welcomes in even more of the blue sky. 3) Stylized stitching detail completes the elegance of available leather-appointed seats that envelop you as you drive. 4) Even back seat passengers are pampered with the ability to listen to their own audio source using available wireless headphones.

Available heated front seats are yet another way the AURA provides you with an uncompromising driving environment.

A comfortable driver is a safe driver. So the AURA allows for up to 16 different seat, steering column and front seat head restraint adjustments for a perfectly customized fit.

Steering wheel controls help you keep your eyes safely on the road while you toggle through audio controls and the features of the Driver Information Center.

Automatic climate control constantly maintains your desired cabin temperature. It is able to heat or cool the cabin when the vehicle is started remotely.

Sedan or concert hall? The available six-disc CD/MP3, eight-speaker, 240-watt premium audio system is truly an auditory experience. You can also activate the available XM Radio* for access to over 170 satellite channels.

For convenience and comfort, the remote vehicle start option allows you to warm up or cool down the car from inside your home.

From laminated windshields and front windows to acoustically designed doors, Saturn engineers have created a luxuriously quiet cabin.

*Available only in the 48 contiguous United States. Service fees apply. Visit gm.xmradio.com for details.

STABILITRAK STABILITY CONTROL

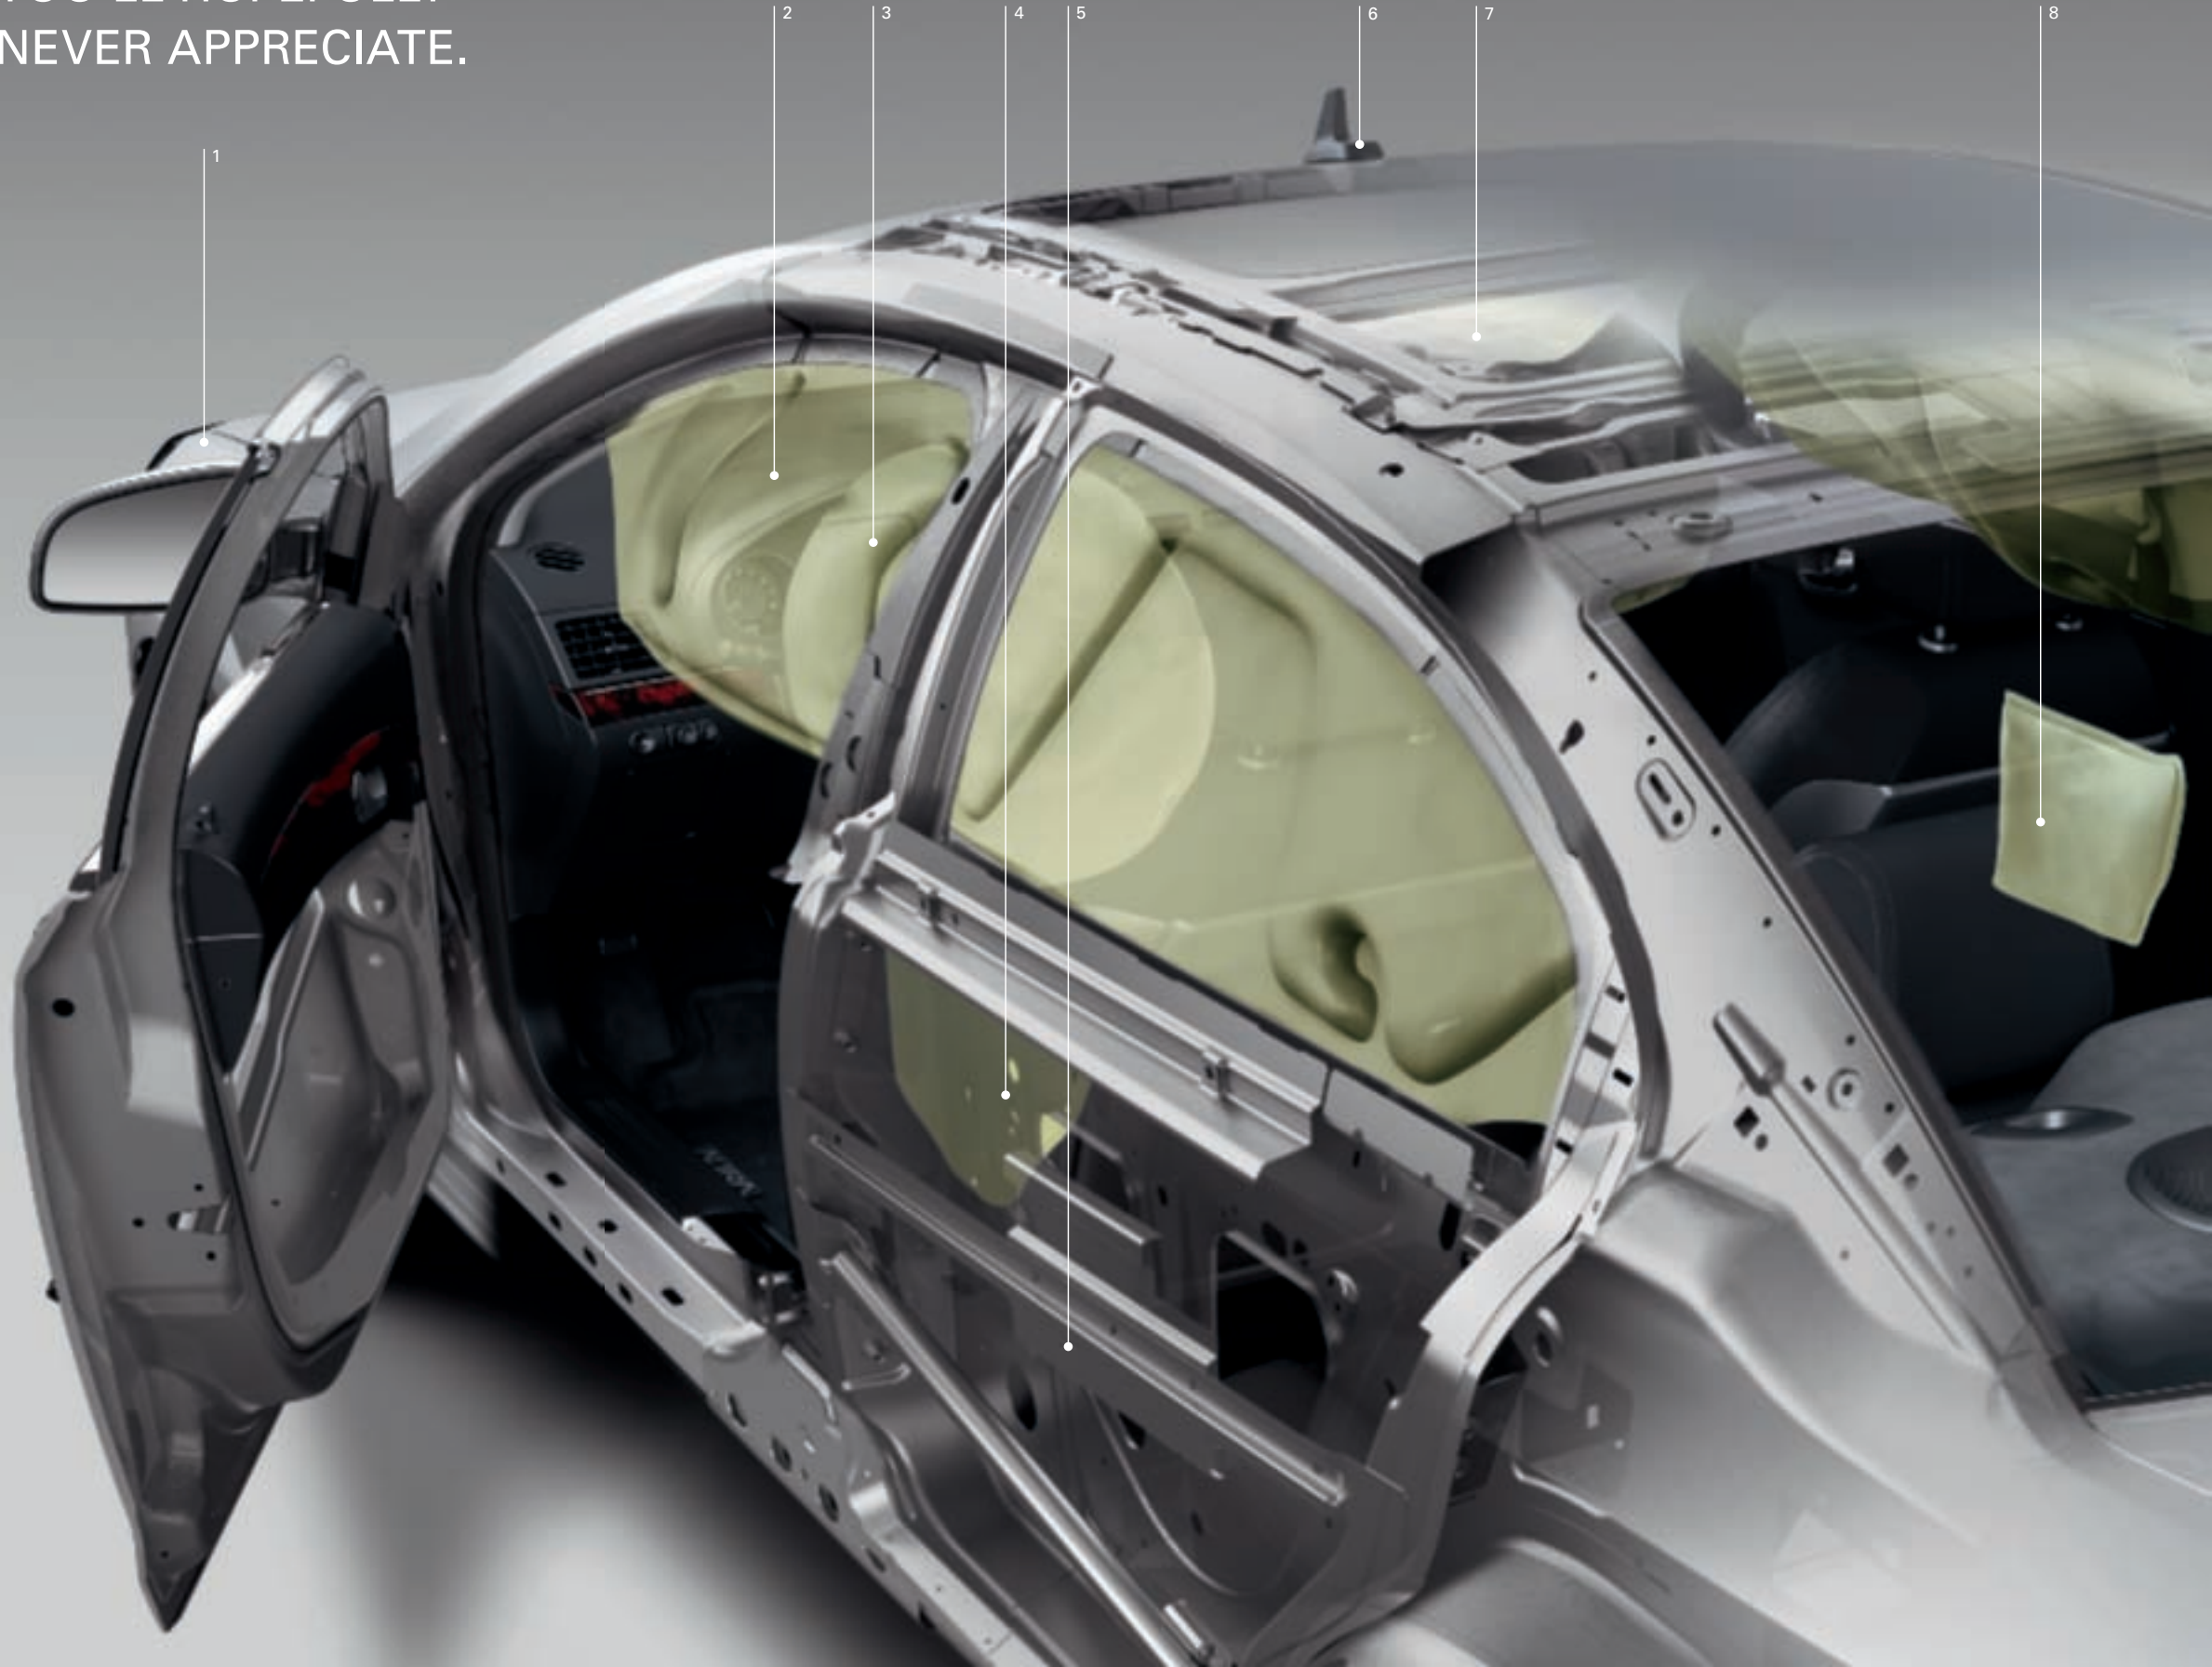

- Car path with StabiliTrak enabled.
- Without StabiliTrak.

OVER 95 INNOVATIVE SAFETY FEATURES YOU'LL HOPEFULLY NEVER APPRECIATE.

Safety is a standard feature of every Saturn we've ever built. And it always will be. Within the AURA, you and your passengers are surrounded by safety features that help you avoid a crash as well as survive one. Six air bags are standard,¹ as is a year of the OnStar® Safe & Sound Service Plan.² And the sophisticated StabiliTrak system controls over- and understeer to help maintain control during more extreme maneuvers.

1) Body frame integral structure provides a steel-reinforced safety cage as well as front and rear impact-absorbing crumple zones. 2) Head Curtain Side Air Bags¹ instantly drop down to protect front and outboard rear seat occupants during lateral impact. 3,7) Dual-stage front air bags¹ instantly detect the severity of a crash and then deploy at one of two levels. 4,8) Front seat-mounted Thorax Protection Air Bags¹ help protect the chest area during certain side impacts. 5) Steel door bars help protect passengers in a side impact. 6) OnStar can help save lives by contacting local emergency services.² And there's more. Four-wheel disc brakes with ABS provide impressive stopping power while maintaining steering control. Traction Control uses an engine torque limiter along with strategic brake application to reduce wheel spin and maintain traction. A Passenger Sensing System automatically turns the front air bag off or on based on the weight and position of the seat occupant. And a tire pressure monitor constantly oversees air pressure and alerts the driver when a tire needs attention.

¹Air bag inflation can cause severe injury or death to anyone too close to the bag when it deploys. Be sure every occupant is properly restrained. See page 26 for important information about air bags, including a note about child safety. ² Call 1-888-4ONSTAR (1-888-466-7827), visit onstar.com and see page 26 for system limitations and details.

UNDER THE RADAR IT IS NOT.

AURA DIMENSIONS

WEIGHTS AND CAPACITIES

	XE	XR

RETAILER-INSTALLED ACCESSORIES

To see the latest AURA accessories, visit saturn.com/aura or your Saturn retailer.

Just when you thought things couldn't get any better, they do. You can accessorize your AURA to match your personal style and your specific needs. 1) All-weather floor mats help contain spills, dirt, rain water, snow and anything else your shoes drag in. 2) Side window air deflectors allow you to experience fresh air without that just-experienced-fresh-air look. 3) Custom molded splash guards keep the evils of the road where they belong. 4) Experience far more than your share of radio station options with an XM Satellite Radio configured stereo.* 5) Custom-fitted front-end cover helps protect your AURA from all manner of weather and grime. 6) Trunk cargo net helps keep your groceries and other potentially wandering items from, well, wandering. 7) What gets noticed first—the distinct exterior design of the AURA or the polished 17-inch wheels?

*Not available at start of production. Available only in the 48 contiguous United States. Service fees apply. Visit gm.xmradio.com for details.

IMPORTANT WORDS ABOUT THIS CATALOG

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the retailer or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Because some information may have been updated since the time of printing, please check with your Saturn retailer for complete details. Saturn reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

A NOTE ABOUT AIR BAGS AND CHILD SAFETY

Always use safety belts and the correct child restraint for your child's age and size. Even in vehicles equipped with air bags and the Passenger Sensing System, children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. Air bag inflation can cause severe injury or death to anyone too close to the bag when it deploys. Be sure every occupant is properly restrained. See your vehicle Owner's Handbook and child-safety seat instructions for more information.

ONSTAR INFORMATION

OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.com for OnStar's Terms and Conditions, Privacy Policy, and system limitations and details.

SATURN'S VEHICLE EXCHANGE PROGRAM

Within the first 30 days or 1,500 miles of delivery, whichever comes first, the original purchaser may exchange his or her Saturn vehicle if not completely satisfied. In the event that an owner returns his or her vehicle, he or she will exchange it for another 2007 Saturn vehicle. See retailer for limitations and restrictions. All the same factory-supported initiatives will be included on the exchange vehicle that were on the original vehicle. The vehicle must be returned in the condition in which it was delivered, without damage or excessive wear and tear. If non-warranty repairs equal to or greater than \$300 have been performed or are necessary, the vehicle is not eligible to be returned; if less than \$300, the damage must be repaired or the estimate deducted from the credit toward the exchange vehicle.

NEW VEHICLE LIMITED WARRANTY

This warranty is for GM vehicles registered in the U.S. See your Saturn retailer for terms and conditions. Covered for 3 years/36,000 miles (whichever comes first): the complete vehicle, tires, towing to your nearest Saturn retailer, cosmetic corrosion resulting from defects, repairs made to correct any vehicle defect, with no charge for most warranty repairs. Covered for 6 years/100,000 miles (whichever comes first): rust-through corrosion.

POWERTRAIN LIMITED WARRANTY

This fully transferable warranty is for GM vehicles registered in the U.S. See your Saturn retailer for terms and conditions. Covered for 5 years/100,000 miles (whichever comes first): most engine, transmission, transfer case and axle assemblies.

ROADSIDE ASSISTANCE

For 5 years/100,000 miles (whichever comes first): 24-Hour Roadside Assistance that includes fuel delivery, lockout, flat tire repair, jump start and certain emergency towing services. This fully transferable service is for GM vehicles registered in the U.S. See your Saturn retailer for terms and conditions.

COURTESY TRANSPORTATION

For 5 years/100,000 miles (whichever comes first): ask your Saturn retailer for Courtesy Transportation if you leave your vehicle for warranty repairs. You may qualify for expense reimbursement and/or transportation options. Services vary by retailer.

CORROSION PROTECTION

Saturn vehicles are designed and built to resist corrosion. All body and sheet metal components are warranted against rust-through corrosion for 6 years/100,000 miles, whichever comes first. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended. See your Saturn retailer for terms of this limited warranty.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES

Installations or alterations to the original equipment vehicle (or chassis) as distributed by GM are not covered by the GM New Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. GM is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.

ASSEMBLY

Saturn vehicles and their components are assembled or produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Saturn vehicles with different or differently sourced components than originally scheduled. Because some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

ENGINES

Saturn products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Saturn products may also be used in other GM makes and models.

UPDATED SERVICE INFORMATION

Saturn retailers receive useful service bulletins about Saturn products. See your retailer for more information.

GM MOBILITY

GM Mobility assists people with unique transportation needs by offering a variety of resources, including aftermarket adaptive equipment. Speak to a knowledgeable Assistance Center representative at 1-800-323-9935 (TTY users: 1-800-833-9935) or visit gmmobility.com for more information.

WHEN YOU GET A SATURN, YOU GET SATURN.

From the engineers who created your AURA to the Saturn team member who hands you the keys, all Saturn people consider customers the most important part of what they do. You'll feel that on your first visit to a Saturn retailer, a place that's home to people who give you much more than a car. You'll get straightforward answers. You'll get a no-hassle experience and no-haggle prices. You'll get our Vehicle Exchange Program,* giving you 30 days to make sure you feel great about your car. And most reassuring of all, you'll get as much attention after you're a Saturn owner as you did when you first walked into the showroom.

START EXPECTING THE UNEXPECTED.

Never before have we offered so many different ways to drive. The newest generation of Saturn is represented by the stunning SKY® roadster and the SKY Red Line Turbo, each available on a limited basis in 2006; the distinctive and engaging AURA mid-size sedan; the roomy eight-passenger OUTLOOK™ SUV, available winter 2006/2007; and the VUE® compact SUV, also available as the affordable VUE Green Line hybrid. For a car that's small in size but big in features, test-drive the ION® sedan or ION quad coupe. And for a gratifying home away from home, look into the seven-passenger RELAY® van. To see more of the next generation of Saturn, visit saturn.com.

Like always. Like never before.™

There is a way to recapture the world's imagination. To make pulses rise and heads turn. To make innovation as basic as breathing, and design more thoughtful. There is a way to stay the same in one way, and evolve in another. To build a car company that doesn't act like a car company. There is a way to treat people like always. There is a way to make cars like never before. Saturn. Like always. Like never before.
