 TOYOTA | *moving forward* ▶

Living large on a small budget is easy in a Corolla. The Corolla S has some pretty impressive styling like front and rear underbody spoilers and available 15-in. aluminum alloy wheels. Pair that with great fuel efficiency and you've got a lot to love about Corolla. toyota.com

 * 2006 Manufacturer's Suggested Retail Price (MSRP): Actual dealer price may vary. Pricing, specifications, standard features and available equipment are based on information available when this page was produced and are subject to change without notice. MSRP excludes Delivery, Processing and Handling Fee(DPH). Historically, vehicle manufacturers and distributors have charged a separate fee for processing, handling and delivering vehicles to dealerships. Toyota's charge for these services is called the "Delivery, Processing and Handling Fee" and is based on the value of the processing, handling and delivery services Toyota provides as well as Toyota's overall pricing structure. Toyota may make a profit on the Delivery, Processing and Handling Fee. Excludes taxes, license, title and available or regionally required equipment.

Warranties

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, front-wheel drive, rear-wheel drive, seatbelts and airbags).

Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Federal Emission Coverage: Components under the federal emission defect warranty are covered for 36 months/36,000 miles and specified major emission control components are covered for 8 years/80,000 miles. Specified major emission control components under emission performance warranty are also covered for 8 years/80,000 miles. In addition, emission performance warranty is applicable for 24 months/24,000 miles in states and local jurisdictions that require a periodic EPA-approved inspection and maintenance program.

California Emission Control Coverage: In California and any other state that adopts California emission warranty provisions, performance warranty and defect warranty coverage is applicable for 36 months/50,000 miles, and specific control devices are covered for 7 years/70,000 miles.

Accessories: Warranty coverage is for 12 months, regardless of mileage. If the part or accessory is installed during the New Vehicle Limited Warranty period, coverage is for 12 months or the remainder of the applicable warranty coverage, whichever is greater, with the exception of car covers, which are covered for 12 months only.

You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota's warranties, please visit www.toyota.com, refer to the applicable Owner's Warranty Information booklet or see your Toyota dealer.

In addition, there may be times when we will establish a special policy adjustment that will further defray repair costs. For details about the new vehicle limited warranty, see your Toyota dealer. And for complete details of Toyota's warranties, please refer to your Owner's Warranty.

[1] Toyota's Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the Monitor System. See your Owner's Manual for details.

[2] The Toyota driver, front passenger, front seat-mounted side airbags and side curtain airbags are Supplemental Restraint Systems (SRS). The driver and front passenger airbags are designed to deploy in severe (usually frontal) collisions where the magnitude and duration of the forward deceleration of the vehicle exceed the design threshold level. The side airbags and side curtain airbags are designed to inflate in certain types of severe side-impact collisions. In all other accidents, the airbags will not inflate. To decrease the risk of injury from a deploying airbag, always wear seatbelts, sit upright in the middle of the seat as far back as possible from the airbag modules and do not lean against the door. Do not put objects in front of an airbag or around the seatback. Do not use rearward-facing child seats in any front passenger seat. The force of a deploying SRS airbag may cause serious injury or death. Please see your Owner's Manual for further instructions. Vehicle complies with "Advanced Airbag" requirements of FMVSS 208.

[3] Shift-activated locking feature with automatic transmission only.

[4] Requires anti-lock brakes. Available with automatic transmission models only.

[5] Toyota Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions, and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your Owner's Manual for further details.

[6] Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher required for optimum engine performance. If premium fuel is not used, certified engine performance and fuel economy will decrease.

[7] With available power moonroof.

[8] Before towing, confirm your vehicle and trailer are compatible, hooked up properly and you have all necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions and cautions from your trailer hitch manufacturer and Toyota vehicle Owner's Manual. The maximum amount you can tow depends on the total weight of any cargo, occupants and optional equipment in the vehicle.

[9] Summer tires are expected to experience greater tire wear than conventional tires. Tire life may be less than 24,000 miles, depending upon driving conditions.

[10] 2006 preliminary mileage estimates determined by Toyota. EPA mileage estimates not available at time of posting. Actual mileage may vary.
