

2020 Toyota

Invite more possibilities.

Behind the wheel of a Toyota, big and small adventures happen naturally. Whether you're starting your career or introducing your newborn daughter to the world, every day brings a new story. And wherever you're going, smart safety technologies like Toyota Safety Sense™ (TSS)¹ are designed to help protect you. Let's get ready for what's next. Let's go places.

RAV4 XSE Hybrid shown in Silver Sky Metallic with Midnight Black Metallic roof and available Technology Package, **RAV4 Limited Hybrid** shown in Ruby Flare Pearl² with available Advanced Technology Package and available panoramic glass roof, and **RAV4 XLE Hybrid** shown in Super White. Prototypes shown with options. For Toyota hybrid vehicles beginning with model year 2020, the hybrid (HV) battery is covered for 10 years from original date of first use or 150,000 miles, whichever comes first. Coverage is subject to the terms and conditions of your New Vehicle Limited Warranty. See *Owner's Warranty and Maintenance Guide* for details.

See numbered footnotes in Disclosures section.

DARING IN EVERY DETAIL.

Avalon XLE | XSE | TRD | TOURING | LIMITED

Follow your inspiration in the 2020 Toyota Avalon, and never look back. Its low, wide stance and flowing roofline give it a sleek silhouette, while strong character lines add definition to its shape — creating an undeniable presence wherever you go.

Avalon Touring shown in Wind Chill Pearl². Prototype shown with options.

9-in. multimedia display

Standard Apple CarPlay^{®3} compatibility

Avalon TRD: TRD track-tuned suspension

See numbered footnotes in Disclosures section.

DESIGNED FOR SAFETY.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION

Pre-Collision System with Pedestrian Detection (PCS w/PD)⁵² helps keep the road safe by detecting a pedestrian under certain daytime conditions. If the system determines that the possibility of frontal collision with a pedestrian is high, it prompts the driver to take evasive action and brake by using an audio/visual alert. If the driver reacts and brakes, the system may use Brake Assist (BA)⁵³ to provide additional brake force. If the driver doesn't react and brake and the system determines that the risk of collision is high, the system may automatically apply the brakes, reducing speed to help mitigate the impact or avoid the collision entirely, if possible.

LANE DEPARTURE ALERT WITH STEERING ASSIST (SELECT TSS-P VEHICLES) AND ROAD EDGE DETECTION (TSS 2.0 VEHICLES)

Using Road Edge Detection, Lane Departure Alert with Steering Assist (LDA w/SA)^{54, 55} issues both an audible alert and visual warning on the Multi-Information Display (MID) screen. If the system determines that the driver is not taking corrective steering action, the Steering Assist function is designed to initiate and provide gentle corrective steering to help keep the vehicle in the lane.

AUTOMATIC HIGH BEAMS

The Automatic High Beams (AHB)⁵⁶ feature is a safety system designed to help you see more clearly at night — without distracting other drivers. Designed to activate at speeds above 25 mph, AHB relies on an in-vehicle camera to help detect the headlights of oncoming vehicles and taillights of preceding vehicles, then automatically toggles between high and low beams accordingly to provide the appropriate amount of light. By using high beams more frequently, the system may allow for earlier detection of pedestrians and obstacles.

⁵²Not all TSS or TSS 2.0 features available on all models and model grades. See dealer for details. See numbered footnotes in Disclosures section. See footnotes 55, 60 and 62 for more information on TSS feature availability.

Toyota Safety Sense™ (TSS)¹ is a bundle of active safety features standard on select models.⁵⁷ These innovative features were designed to help protect you and your passengers from harm.

**ROAD SIGN ASSIST —
TSS 2.0 VEHICLES ONLY**

Road Sign Assist (RSA)⁵⁸ helps keep drivers informed of important signs. Using a forward-facing intelligent camera, Road Sign Assist is designed to detect speed limit signs, stop signs, do-not-enter signs and yield signs, and display them on the MID.

**FULL-SPEED DYNAMIC RADAR CRUISE CONTROL —
SELECT TSS-P AND TSS 2.0 VEHICLES**

Intended for highway use and similar to “constant speed” cruise control, Dynamic Radar Cruise Control (DRCC)^{59, 60} lets you drive at a preset speed. DRCC uses vehicle-to-vehicle distance control, which adjusts your speed, to help you maintain a preset distance from vehicles ahead of you that are driving at a slower speed. DRCC uses a front-grille-mounted radar and an in-vehicle camera designed to detect vehicles and their distance. If a driver is traveling slower than you, or within your preset range, DRCC will automatically slow your vehicle down without deactivating cruise control. If DRCC determines you need to slow down more, an audio and visual alert notifies you and brakes may be applied. When there’s no longer a vehicle driving slower than your set speed in front of you, DRCC will then accelerate to your preset speed.

**LANE TRACING ASSIST —
SELECT TSS 2.0 VEHICLES**

When Lane Tracing Assist (LTA)^{61, 62} is on and Dynamic Radar Cruise Control⁵⁹ is enabled, the vehicle is designed to use visible lane markers and/or a preceding vehicle to help keep the vehicle centered while also displaying the vehicle’s position within the MID screen. The system is designed to reduce driver strain, increase convenience and benefit drivers most during traffic jam situations — but can be turned off using the MID.

¹Not all TSS or TSS 2.0 features available on all models and model grades. See dealer for details. See numbered footnotes in Disclosures section. See footnotes 55, 60 and 62 for more information on TSS feature availability.

CARS BUILT FOR THE WAY YOU LIVE

At Toyota, we build cars for how you live. From building advanced safety features designed to help prevent crashes to driving cross-country to understand how we can make your driving experience better, our work starts with understanding your needs. Building cars for how you live also means thinking about tomorrow — from fuel efficiency and environmental innovations, to things beyond cars, like a bicycle that you can control with your mind. And because what we learn building cars can help improve lives in other places, we do things like help communities rebuild their homes quickly after a disaster and work with soup kitchens to help them serve more people faster. Toyota. Built for how you live. Together we are going places.

DISCLOSURES

1. Toyota Safety Sense™ effectiveness is dependent on many factors including road, weather and vehicle conditions. Drivers are responsible for their own safe driving. Always pay attention to your surroundings and drive safely. See *Owner's Manual* for additional limitations and details. 2. Extra-cost color. 3. Always drive safely and obey traffic laws. Apps and services are subject to change at any time without notice. Data charges may apply. Apple CarPlay® functionality requires a compatible iPhone® connected with an approved data cable into the USB media port. Apple CarPlay® is a registered trademark of Apple Inc. 4. CAUTION! Pedestrians, bicyclists, and other vehicles may not hear your vehicle approach when driving in EV Mode. Quick acceleration and braking, temperature, hybrid battery charge and other road and vehicle conditions may prevent or limit usage or effectiveness of EV Mode. Driving speed and distance is limited. See *Owner's Manual* for details. 5. EV Mode requires some level of charge to activate, and functionality, including maximum speed and driving range, will vary based on several factors, such as temperature and battery age. See *Owner's Manual* for additional limitations and details. 6. 2020 Avalon Hybrid XLE EPA 43 city/44 highway/44 combined mpg estimates. Actual mileage will vary. 7. Amazon, Alexa, and all related logos are trademarks of Amazon.com, Inc. or its affiliates. Not all Amazon Alexa functionality is available for in-vehicle use. 8. The Bird's Eye View Camera does not provide a comprehensive view of the area surrounding the vehicle and you should also look around the vehicle, using mirrors to confirm surrounding clearance. Environmental conditions may limit effectiveness and view may become obscured. See *Owner's Manual* for additional limitations and details. 9. Vehicle user interface is a product of Google and its terms and privacy statement apply. Requires compatible smartphone connected with an approved data cable into the USB media port, and data plan rates apply. Android, Android Auto and Waze are trademarks of Google. 10. Dynamic Navigation depends on an operative telematics device, a cellular connection, navigation map data and GPS signal strength, and other factors outside of Toyota's control, which can limit system functionality or availability. Services not available in every city or roadway. Use common sense when relying on information provided. Service may vary by vehicle and region. Registration is required. Terms of Use apply. See *Owner's Manual* and <https://toyota.com/connected-services> for additional limitations and details. To learn about Toyota's data collection, use, sharing and retention practices, please visit <https://www.toyota.com/privacyvts/>. 11. JBL® and Clari-Fi® are registered trademarks of Harman International Industries, Inc. 12. 2020 EPA-estimated 51 city/53 highway/52 combined mpg for Camry Hybrid LE. Actual mileage will vary. 13. Prius AWD-e system operates at speeds up to 43 mph. 14. Do not overload your vehicle. See *Owner's Manual* for weight limits and restrictions. 15. Cargo and load capacity limited by weight and distribution. Always properly secure cargo and cargo area. 16. Based on the U.S. Department of Energy data as of October 15, 2019. Excludes all-electric vehicles. Prius AWD-e system operates at speeds up to 43 mph. 17. Intelligent Clearance Sonar (ICS) is designed to assist drivers in avoiding potential forward collisions at speeds of 9 mph or less. Certain vehicle and environmental factors, including an object's shape, size and composition, may affect the system's effectiveness. Always look around outside the vehicle and use mirrors to confirm clearance. See *Owner's Manual* for additional limitations and details. 18. The Intelligent Parking Assist system requires driver brake control. Always look around outside the vehicle and use mirrors to confirm clearance. See *Owner's Manual* for additional limitations and details. 19. 2020 Prius Prime EPA-estimated combined MPGe when fully charged. Actual MPGe will vary. Battery capacity will decrease with time and use. See www.fueleconomy.gov. 20. CAUTION! When driving a hybrid vehicle, pay special attention to the area around the vehicle. Because there is little vehicle noise in EV Mode, pedestrians, people riding bicycles or other people and vehicles in the area may not be aware of the vehicle starting off or approaching them, so take extra care while driving. Prime's EV Mode has an EPA-estimated driving range of 25 miles, allowing it to work under certain conditions at full highway speeds. EV Mode range will vary and is dependent upon many factors, including charging practice, driving style, road/traffic conditions, outside temperature, air conditioning control levels, payload/cargo weight, proper tire pressure, vehicle maintenance and battery age. Battery capacity will decrease with time and use. See *Owner's Manual* for additional limitations and details. 21. 2020 Prius Prime EPA-estimated total driving range with a full tank of gas. Based on 45% highway, 55% city driving. Actual total range will vary for many reasons including driving conditions and how you drive and maintain your vehicle. See www.fueleconomy.gov. 22. 2020 EPA-estimated 67 city/67 highway/67 combined MPGe for Mirai and 312-mile driving range when fully charged. Actual mileage will vary for many reasons including driving conditions and how you drive and maintain your vehicle. Range measurement pursuant to SAE J2601 standards (ambient temperature: 20°C; hydrogen tank pressure when fueled: 70 MPa). Fueling time varies with hydrogen fueling pressure and ambient temperature. 23. Fueling time varies with hydrogen fueling pressure and ambient temperature. 24. Tire life may be substantially less than mileage expectancy, depending on driving conditions. 25. Brembo® is a registered trademark of Freni Brembo SpA. High-friction brakes may require additional maintenance, be louder and have a shorter life than conventional brakes, depending on driving conditions. See the *Warranty and Services Guide* for more information. 26. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Toyota is under license. A compatible Bluetooth®-enabled phone must first be paired. Phone performance depends on software, coverage and carrier. 27. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the monitor. See *Owner's Manual* for additional limitations and details. 28. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 29. 2020 EPA-estimated 53 city/52 highway/52 combined mpg for Corolla Hybrid LE. Actual mileage will vary. 30. The available R-Code adds differentiation with a black- or silver-painted roof and side mirrors. 31. 2020 Yaris and Yaris Hatchback with automatic transmission EPA 32 city/40 highway/35 combined mpg estimates, and Yaris with manual transmission EPA 30 city/39 highway/34 combined mpg estimates. Actual mileage will vary. 32. The backup camera does not provide a comprehensive view of the rear area of the vehicle and you should also look around the vehicle, using mirrors to confirm rearward clearance. Environmental conditions may limit effectiveness and view may become obscured. See *Owner's Manual* for additional limitations and details. 33. Low-Speed Pre-Collision System operates at speeds of 18 mph or less. It is intended to assist a driver, but it is the driver's responsibility to be aware of the vehicle's surroundings. The system cannot prevent all collisions, and performance is dependent on road, weather, and vehicle conditions. See *Owner's Manual* for additional limitations and details. 34. At speeds of 9 mph or less, Front and Rear Parking Assist with Automated Braking (PA w/AB) is designed to assist drivers in avoiding potential collisions with nearby static objects when the vehicle is in Drive or Reverse and approaching crossing vehicles when the vehicle is in Reverse. Do not overly rely on PA w/AB. Always look around outside the vehicle and use mirrors to confirm clearance. Certain vehicle and environmental factors, including an object or vehicle's shape, size and composition, may affect the system's effectiveness. See *Owner's Manual* for additional limitations and details. 35. Qi wireless charging may not be compatible with all mobile phones, MP3/WMA players and like models. When using the wireless charging system, avoid placing metal objects between the wireless charger and the mobile device when charging is active. Doing so may cause metal objects to become hot and could cause burns. 36. 2020 Highlander vs. 2020 competitors. Based on manufacturers' data as of 9/19/19. 37. 2020 Highlander Hybrid AWD EPA 35 city/35 hwy/35 combined mpg estimates. Actual mileage will vary. 2020 Highlander Hybrid vs. 2020 competitors based on manufacturers' data as of 9/19/19. 38. 2020 Highlander Hybrid EPA-estimated total driving range with a full tank of gas. Based on 45% highway, 55% city driving. Actual total range will vary. 2020 Highlander Hybrid vs. 2020 competitors based on manufacturers' data as of 9/19/19. 39. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your *Owner's Manual*. The maximum you can tow depends on base curb weight plus the total weight of any cargo, occupants, and added vehicle equipment. "Added vehicle equipment" includes additional standard/optional equipment and accessories added by the manufacturer, dealers, and/or vehicle owners. The only way to be certain of your vehicle's exact curb weight is to weigh your vehicle without passengers or cargo. Calculated with the new SAE J2807 method. Installation of a tow hitch receiver will disable the touchless sensor in your vehicle's power rear-door liftgate and sensor operation setting should be turned off. See *Owner's Manual* for additional limitations. 40. The Toyota model or models shown are designed to meet most off-road driving requirements, but off-roading is inherently dangerous and may result in vehicle damage. Toyota encourages responsible operation to help protect you, your vehicle and the environment. Seatbelts should be worn at all times. Do not allow passengers to ride in cargo area. 41. BBS® is a registered trademark of BBS of America, Inc. 42. The Multi-Terrain Monitor view is limited and can be affected by environmental conditions. See *Owner's Manual* for additional limitations and details. 43. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Functionality, availability and accuracy of information provided by the system depends on many factors and service may not be available in every location. Use common sense when relying on information provided. Apps/services vary by phone/carrier. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change at any time without notice. See toyota.com/connected-services for details. Services and programming subject to change. Updates may be available from your dealer at an additional cost. See *Owner's Manual* for additional limitations and details. 44. Crawl Control is designed for driving on difficult terrain at low speeds and assists the driver by controlling acceleration and braking, allowing the driver to focus on steering. See *Owner's Manual* for additional limitations and details. 45. Based on manufacturers' data, November 2018. 46. A Blu-ray Disc™/DVD player is standard. A separate Blu-ray Disc™/DVD player or game system utilizing the center console's video/audio inputs is required in order to use the split-screen function of the Dual-View system. 47. The Panoramic View Monitor does not provide a comprehensive view of the area surrounding the vehicle. You should also look around outside your vehicle and use your mirrors to confirm surrounding clearance. Environmental conditions may limit effectiveness and view may become obscured. See *Owner's Manual* for additional limitations and details. 48. Rigid Industries® is a registered trademark of JST Performance, LLC d/b/a Rigid Industries. 49. FOX is a registered trademark of FOX Factory, Inc. 50. SofTex® is a registered trademark of Toyota Motor Sales, U.S.A., Inc. 51. This floor mat/floor liner was designed specifically for use in your model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each mat/liner must be secured with its fasteners. Do not install a floor mat/floor liner on top of an existing floor mat/floor liner. 52. The Pre-Collision System (PCS) with Pedestrian Detection (PD) is designed to determine if impact is imminent and help reduce impact speed and damage in certain frontal collisions involving a vehicle or a pedestrian. PCS w/PD is not a substitute for safe and attentive driving. System effectiveness

DISCLOSURES (continued)

depends on many factors, such as speed, size and position of pedestrian and weather, light and road conditions. See *Owner's Manual* for additional limitations and details. **53.** Brake Assist is designed to help the driver take advantage of ABS and is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, tire and road conditions. See *Owner's Manual* for additional limitations and details. **54.** Lane Departure Alert with Steering Assist is designed to read visible lane markers under certain conditions. It provides a visual and audible alert and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See *Owner's Manual* for additional limitations and details. **55.** Steering Assist not available on Land Cruiser, Sequoia, Tundra, Tacoma or 4Runner. **56.** Automatic High Beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness, requiring the driver to manually operate the high beams. See *Owner's Manual* for additional limitations and details. **57.** TSS not available on 86; Yaris and Yaris Hatchback have very limited TSS functions. See your Toyota dealer or toyota.com/safety-sense for more information on TSS feature availability. **58.** Do not rely exclusively on Road Sign Assist (RSA). RSA is a driver support system that utilizes the vehicle's forward facing camera and navigation system (when data is available) to recognize certain road signs and provide information to the driver via the multi-information display and/or Head-Up display. Effectiveness is dependent on road, weather, vehicle and sign conditions. Use common sense when using RSA and do not drive distracted. See *Owner's Manual* for additional limitations and details. **59.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. System effectiveness is dependent on many factors including road, weather and traffic conditions. See *Owner's Manual* for additional limitations and details. **60.** Full-Speed Range Dynamic Radar Cruise Control not available on GR Supra, Yaris Hatchback, Yaris, Highlander, Highlander Hybrid, Sequoia, Land Cruiser, Sienna, Tacoma, 4Runner or Tundra. **61.** Lane Tracing Assist (LTA) is designed to read visible lane markers and detect other vehicles under certain conditions when DRCC is engaged. When potential lane departure is detected, LTA provides a visual warning and either an audible alert or vibration in the steering wheel and can apply a slight steering force. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. LTA not available on manual transmissions. See *Owner's Manual* for additional limitations and details. **62.** Lane Tracing Assist not available on Corolla and Corolla Hatchback with manual transmission or Mirai.

Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order.

Color(s) depicted may vary based on multiple factors, including ambient lighting and the format in which it is being viewed (e.g., computer, mobile device or print).

Some vehicles are shown with available equipment. Seatbelts should be worn at all times. For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle.

All information presented herein is based on data available at the time of posting, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only. Vehicles shown may be prototypes and/or shown with options. Actual models may vary.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Hybrid-Related Component Coverage: Hybrid-related components, including the battery control module, hybrid control module and inverter with converter, are covered for 8 years/100,000 miles. Refer to applicable *Warranty and Maintenance Guide* for details.

Hybrid Battery: HV battery is covered for 10 years or 150,000 miles, whichever comes first. Warranty coverage is subject to terms and conditions. Refer to applicable *Warranty and Maintenance Guide* for details.

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Emissions: Coverages vary under Federal and California regulations. Refer to applicable *Warranty and Maintenance Guide* for details.

Accessories: For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle's in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage. You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota's warranties, please visit www.toyota.com, refer to the applicable *Warranty and Maintenance Guide* or see your Toyota dealer.

We want everything about your experience with Toyota to exceed your expectations. The Toyota Customer Experience Center is one way we hope to satisfy you. Got a question, comment or concern? Please contact us at:
